ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have

been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. --

*The Fourth Paradigm* O'Reilly Media

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This book covers introductory Microsoft Word, Excel, Access, and PowerPoint, with an additional Windows 10 chapter. Beyond point-and-click The goal of the Exploring series is to move students beyond the point-and-click, to understanding the why and how behind each skill. And because so much learning takes place outside of the classroom, this series provides learning tools that students can access anywhere, anytime. Students go to college now with a different set of skills than they did years ago. With this in mind, the Exploring series seeks to move students beyond the basics of the software at a faster pace, without sacrificing coverage of the fundamental skills that everyone needs to know. Also available with MyITLab MyITLab® is an online homework, tutorial, and assessment program designed for Information Technology (IT) courses, which

engages students and improves results. HTML5 Simulation exercises and Live-in-Application Grader projects come with the convenience of auto-grading and instant feedback, helping students learn more quickly and effectively. Digital badges lets students showcase their Microsoft Office or Computer Concepts competencies, keeping them motivated and focused on their future careers. MyITLab builds the critical skills needed for college and career success. Note: You are purchasing a standalone product; MyITLab does not come packaged with this content. Students, if interested in purchasing this title with MyITLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

**Exploring Microsoft Office 2010** Pearson  
Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health

---

challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

#1 NEW YORK TIMES BESTSELLER • ONE OF ESSENCE'S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS In this iconic memoir of his early days, Barack Obama "guides us straight to the intersection of the most

---

serious questions of identity, class, and race" (The Washington Post Book World). "Quite extraordinary."—Toni Morrison In this lyrical, unsentimental, and compelling memoir, the son of a black African father and a white American mother searches for a workable meaning to his life as a black American. It begins in New York, where Barack Obama learns that his father—a figure he knows more as a myth than as a man—has been killed in a car accident. This sudden death inspires an emotional odyssey—first to a small town in Kansas, from which he retraces the migration of his mother's family to Hawaii, and then to Kenya, where he meets the African side of his family, confronts the bitter truth of his father's life, and at last reconciles his divided inheritance. Praise for *Dreams from My Father* "Beautifully crafted . . . moving and candid . . . This book belongs on the shelf beside works like James McBride's *The Color of Water* and Gregory Howard Williams's *Life on the Color Line* as a tale of living astride America's racial categories."—Scott Turow "Provocative . . . Persuasively describes the phenomenon of belonging to two different worlds, and thus belonging to neither."—The New York Times Book Review "Obama's writing is incisive yet forgiving. This is a book worth savoring."—Alex Kotlowitz, author of *There Are No Children Here* "One of the most powerful books of self-discovery I've ever read, all the more so for its illuminating insights into the problems not only of race, class, and color, but of culture and ethnicity. It is also beautifully written, skillfully layered, and paced like a good

novel."—Charlayne Hunter-Gault, author of *In My Place* "Dreams from My Father is an exquisite, sensitive study of this wonderful young author's journey into adulthood, his search for community and his place in it, his quest for an understanding of his roots, and his discovery of the poetry of human life. Perceptive and wise, this book will tell you something about yourself whether you are black or white."—Marian Wright Edelman  
*Balancing Societal and Individual Benefits and Risks of Prescription Opioid Use* Prentice Hall
