[Teaching Science and Technology in the Early Years \(3-7\)](#) SAGE

The material in this book forms the basis of an interdisciplinary, college-level course, which uses science fiction film as a vehicle for exploring science concepts. Unlike traditional introductory-level courses, the science content is arranged according to major themes in science fiction, with a deliberate progression from the highly objective and discipline-specific (e.g. Reference Frames; Physics of Space Travel and Time Travel) to the very multi-disciplinary and thought-provoking (e.g. Human Teleportation; Science and Society). Over 100 references to science fiction films and television episodes are included, spanning more than 100 years of cinematic history. Some of these are conducive to calculations (solutions included).

[Solution to Exploring Science Book for Class 6](#) Goyal Brothers Prakashan

The Association for Science Education Book Award 2016, Finalist. Science in the early years is about more than developing understanding of key scientific concepts, it is about encouraging imagination, creativity and curiosity and nurturing key scientific skills to form a firm base for learning. Understanding how best to do this for young children aged 3-7 is the focus of the book. By concentrating on practical and naturally occurring experiences the authors look at meeting the needs of the curriculum with children at the centre of their own learning. Chapters look at how to work with children to: Find out and develop their own ideas Get them inquiring scientifically Use evidence to support their views This book will really help develop the whole child across the curriculum and make sure they have the skills they need for later learning.
