The Number One course for 11-14 year-olds has now been fully revised for the new science curriculum. Exploring Science Longman

The material in this book forms the basis of an interdisciplinary, college-level course, which uses science fiction film as a vehicle for exploring science concepts. Unlike traditional introductory-level courses, the science content is arranged according to major themes in science fiction, with a deliberate progression from the highly objective and discipline-specific (e.g. Reference Frames; Physics of Space Travel and Time Travel) to the very multi-disciplinary and thought-provoking (e.g. Human Teleportation; Science and Society). Over 100 references to science fiction films and television episodes are included, spanning more than 100 years of cinematic history. Some of these are conducive to calculations (solutions included).

Subject: science; biology, chemistry, and physics Level: Key Stage 3 (age 11-14) Exciting, real-world 11-14 science that builds a base for International GCSEs. Pearson's popular 11-14 Exploring Science course - loved by teachers for its exciting, real-world science - inspires the next generation of scientists. With brand-new content, this 2019 International edition builds a base for progression to International GCSE Sciences and fully covers the content of the 13+ Common Entrance Exam. Exciting, real-world science that inspires the next generation of scientists. Explore real-life science that learners can relate to, with stunning videos and photographs. Provides content for a broad and balanced science curriculum, while building the skills needed for International GCSE sciences and the 13+ Common Entrance Exam. Choose from two Student Book course options to match the way your school teaches 11-14 science. The Student Books are arranged by year (Year 7, 8 and 9) or by science (biology, chemistry, physics). This Student Book contains all Year 7 biology, chemistry and physics content. Learn more about this series, and access free samples, on our website: www.pearsonschools.co.uk/ExploringScienceInternational.

Exploring Science

Introduce early learners to real science with the Exploring the Building Blocks of Science Book 1 Student Textbook. Foundational scientific concepts and terminology are presented clearly and in a manner that's easy for kids to understand. Using this book gives kids a solid base on which to build a further study of science. This year-long curriculum contains four chapters of each of five scientific disciplines: chemistry, biology, physics, geology, and astronomy, as well as an introduction to the material covered and a concluding chapter for a total of 22 chapters. The many graphics in this full color textbook reinforce the concepts presented and make the book fun for kids and teachers alike to read. This Student Textbook is accompanied by Exploring the Building Blocks of Science Book 1 Laboratory Notebook (experiments) and Exploring the Building Blocks of Science Book 1 Teacher's Manual. Other supplemental materials are available at www.realscience4kids.com.

Exploring Science

* A rich and stimulating learning experience - Exploring Science: Working Scientifically Student Books present Key Stage 3 Science in the series' own unique style - packed with extraordinary photos and incredible facts - encouraging all students to explore, and to learn
* Clear learning outcomes are provided for every page spread, ensuring students understand their own learning journey
* New Working Scientifically pages focus on the skills required by the National Curriculum and for progression to Key Stage 4, with particular focus on literacy

Exploring Science International Year 9 Workbook

* Over 800 new differentiated worksheets across all three years of Key Stage 3 * Over 700 classic worksheets from previous editions, freshly edited and incorporated into the new curriculum * All practical activities have been fully tested in school labs by a dedicated testing team, and reviewed by CLEAPPS for health and safety compliance

Workbook

The Teacher and Technician Planning Pack is designed to give you maximum support for Exploring Science: Working Scientifically. Including: * Detailed Technician notes * All the answers to all the questions in the Student Book and Activity Pack * Background information for each unit, including explanations of the science and potential misconceptions * Full mapping of the units to the curriculum and skills coverage, including a Blooms' Taxonomy for each unit * All the lesson plans from the ActiveTeach Planner
