A Strategic Guide to Technical Communication incorporates useful and specific strategies for writers to create aesthetically appealing and usable technical documentation. These strategies have been developed and tested on a thousand students from a number of different disciplines over twelve years and three institutions. The second edition adds a chapter on business communication, reworks the discussion on technical style, and expands the information on visual communication and ethics into free-standing chapters. Particular attention is paid throughout to the needs of Canadian students.

The profession of guiding in North America has a long and distinguished history that dates back more than one hundred years. In that time, a great number of guides from around the world, including Canada, have used and revised traditional techniques and developed skills specifically suited to local areas. Today's guiding industry is based on this groundwork and continues to evolve at a significant pace. This manual defines technical guidelines for professional guides who are trained and certified by the Association of Canadian Mountain Guides (ACMG); however, no one person or organization can lay claim to the techniques included here.

The New Practical Guide to Canadian Political Economy is a handy reference to the vast range of research and writing that political economists in Canada have completed to the date of publication. The book is divided into twenty-five subject bibliographies, each one compiled and introduced by an expert in the field. The overall range of subjects includes economic development in Canada, Canada's external economic relations, regional disparities and regional development, social and economic classes, women, Native peoples, politics and the Canadian state, nationalism, culture and political thought. The book is indexed by author, and includes a helpful shortlist of the "staples" in Canadian political economy. Published in 1985, The New Practical Guide to Canadian Political Economy remains a useful reference to some of the classic literature of the discipline.

Restoring the Spirit James Lorimer & Company

In print for the first time since 1971, Manual for Draft-Age Immigrants to Canada has once again become relevant in a time of major political upheaval in the United States of America. First published in 1968 by House of Anansi Press, the Manual for Draft-Age Immigrants to Canada was a

handbook for Americans who refused to serve as draftees in the Vietnam War and were considering immigrating to Canada. Conceived as a practical guide with information on the process, the Manual also features information on aspects of Canadian society, touching on topics like history, politics, culture, geography and climate, jobs, housing, and universities. The Manual went through several editions from 1968 – 71. Today, as Americans are taking up the discussion of immigration to Canada once again, it is an invaluable record of a moment in our recent history.

I. C. S. Vocational Guidance Manual Broadview Press

When injured soldiers returned from the First World War and needed to convalesce from severe injuries and trauma, a group of women were ready to help. Then known as "ward aides," these women — many of whom were artists or teachers — used simple craft activities to raise morale, build self-esteem, and teach skills. Restoring the Spirit illuminates the origins of occupational therapy in Canada and shows how the profession became an indispensable part of modern health care. Tracing the influence of popular political and social movements of the time, including the Mental Hygiene, Arts and Crafts, and Settlement House movements, Judith Friedland tells the stories of pioneering women in the field and describes how they established professional associations, workshops, and educational programs. She highlights the help they received from male physicians, which gave them access to those with decision-making power, and examines their work in both rural and urban environments with those from different economic and ethnic backgrounds. An informative look at the origins of a field that now has over thirteen thousand practitioners in Canada, Restoring the Spirit is also the compelling story of the rise of working women and their crucial contributions to the history of health care.

Bringing together diverse approaches and case studies of international health worker migration, Global Migration, Gender, and Health Professional Credentials critically reimagines how we conceptualize the transfer of value embodied in internationally educated health professionals (IEHPs).

This volume provides key insights into the economic and feminist concepts of global value transmission, the complexity of health worker migration, and the gendered and intersectional intricacies involved in the workplace integration of immigrant health care workers. The contributions to this edited collection uncover the multitude of actors who play a role in creating, transmitting, transforming, and utilizing the value embedded in international health migrants.

This major collection contains selected papers from the third Public Law Conference, an international conference hosted by the University of Melbourne in July 2018. The collection includes contributions by leading academics and senior judges from across the common law world, including Australia, Canada, New Zealand, the United Kingdom and the United States. The collection explores the frontiers of public law, examining cutting-edge issues at the intersection of public law and other fields. The collection addresses four principal frontiers: public law and international law; public law and indigenous peoples; public law and other domestic fields, specifically criminal law and private law; and public law and public administration. In common with the two books from the previous Public Law Conferences, this collection offers authoritative insights into the most important issues emerging in public law, and is essential reading for those working in the field.
