The United Nations declared the year 2002 as "The Year of the Mountains" and encouraged countries all over the world to have environmental conferences regarding the conservation of mountains. The Conference for the Caribbean and the Americas was held in Cuba, and Clyde Butcher was invited to photograph the mountains of Cuba for the conference. He spent three weeks photographing from the Sierra Maestra of the east coast to the mogote region of the west coast--rain forests, waterfalls, and cliffs that drop off into a perfect ocean. The beauty and majesty of Cuba's natural landscape are captured in his intimate compositions, their focus on shape and light, the horizon and the sky.

How do you tailor education to the learning needs of adults? Do they learn differently from children? How does their life experience inform their learning processes? These were the questions at the heart of Malcolm Knowles ' pioneering theory of andragogy which transformed education theory in the 1970s. The resulting principles of a self-directed, experiential, problem-centred approach to learning have been hugely influential and are still the basis of the learning practices we use today. Understanding these principles is the cornerstone of increasing motivation and enabling adult learners to achieve. The 9th edition of The Adult Learner has been revised to include: Updates to the book to reflect the very latest advancements in the field. The addition of two new chapters on diversity and inclusion in adult learning, and andragogy and the online adult learner. An updated supporting website. This website for the 9th edition of The Adult Learner will provide basic instructor aids. For each chapter, there will be a PowerPoint presentation, learning exercises, and added study questions. Revisions throughout to make it more readable and relevant to your practices. If you are a researcher, practitioner, or student in education, an adult learning practitioner, training manager, or involved in human resource development, this is the definitive book in adult learning you should not be without.

Given the surge in popularity of the Russian avant-garde, a book devoted to the gradual awareness of the artistic value of icons and their effect on Russian aesthetics is timely. The discoveries, the false starts, the incompetence, the interaction of dilettantes and academics, the meddling of tsars and church officials, all make for a fascinating tale of growing cultural awareness. It is a story that prepares the ground for the explosion of Russian cultural creativity and acceptability in the early twentieth century.
