Avoid legal pitfalls for your business from day one A common characteristic of entrepreneurs is the attitude: "I'm not going to do that until I absolutely have to." And it's understandable why: with limited time and resources it seems logical to focus on tasks like product development, production, marketing, and delivery—the ones that get your product or service out into the marketplace. The last thing you want to do is spend money and effort on legal issues, which is why they often drop to the bottom of the pile. But this can be a costly mistake—and Go Legal Yourself is here to make sure it's one you avoid. Attorney, inventor, and businesswoman—named Top Woman Entrepreneur by LA Dreams Magazine in 2017—Kelly Bagla knows about doing business from both the entrepreneurial and legal sides of the fence. And in Go Legal Yourself, she guides you through the four key legal lifecycle phases every business experiences—and sets you up for worry-free success from day one. Establish yourself as the correct legal entity. Gather and complete the relevant documentation Protect your brand Identify and avoid common (and expensive) pitfalls Plan and manage growth, enter new markets, and keep a sharp competitive edge Wherever you are with your business, this book is your guarantee you have all your legal ducks in a row—and that no nasty legal surprises stand between you and your target: success.

America, Incorporated Those aren't stars, darling That's your nervous system Nanna didn't take you to planetariums like this --from "Hyper-Berouse: 3 A.M." August Kleinzahler's new poems stretch and go places he has never gone before: they have his signature high color and rhythmic jump, but they take on a breadth of voice and achieve registers that his earlier work only hinted at. Ranging from Vegas and Mayfair to the Asian steppes and contemporary Berlin, these poems touch down at will in tableaux where Liberace unceremoniously meets with St. Kevin and Attila with Zsa Zsa Gabor. Surprise after surprise, nothing seems to lie outside Kleinzahler's purview. This is the strongest collection to date from a poet with "the vision and confident skill to make American poetry new" (Clive Wilmer, *The Times* [London]).

"You cannot win without a workplace where women and men have equal opportunities, equal input, and equal power." —Dominic Barton, Global Managing Partner, McKinsey & Company On almost a daily basis, we read stories in the news about high-profile male leaders, CEOs, venture capitalists, and entrepreneurs harassing and acting inappropriately toward the women with whom they work. Following such revelations, these men generally lose their jobs, and their companies lose valuable female talent, customers/clients, and their reputations. And, although we regularly hear stories about the "bro culture" that obstructs women's progress and creates hostile work environments for them, we haven't heard as much about the efforts of good men who want to change the in-office behavior of their teams and companies so that they and women they work with can realize their full potential and their businesses can thrive. This book teaches men and managers how to respond in these situations and how to lead by example. In *WE: Men, Women, and the Decisive Formula for Winning at Work*, Rania Anderson lends her guidance on this exact topic. Social mores have changed, and yet, well-intentioned managers simply don't always know what to do and what's appropriate and useful to actively recruit, retain, and advance more women into leadership. They want to be told how this can make a difference to them and how they can make a difference— this book shows you how to improve your own results and win in business: A new playbook to recruit and retain high-caliber women Take actions to work effectively, elevate and lead with women in the workplace Discover how traditional social roles exert a powerful pull on people of both genders and what to do about it. End confusion of male leaders In the #MeToo era when everyone else is focused on what's wrong and what not to do, *WE: Men, Women, and the Decisive Formula for Winning at Work*, is about what's going well and what you can do. Men who are front-line managers, middle managers, and senior managers have been sidelined and left out of efforts to achieve gender parity for too long. Now, these guys can get back in the game!
