The report contains the description of the MAD/I language and user's guide for MAD/I in MTS (Michigan Terminal System). The pre-defined MAD/I language, described in the report, is a procedure-oriented algebraic language designed for general-purpose use. It is styled after such languages as ALGOL 60, MAD, and PL/I. MAD/I is also intended as a convenient 'base' language for extension by a definitional facility. The language anticipates the definition (or re-definition) of: data types and structures, statements, operators and operations. The definitional facility itself is not described. The user's guide shows how to compile and run MAD/I programs in MTS. Sample runs are included. There is also a description of a

compiler feature which allows assembler code for the IBM 360 to be compiled within a MAD/I program.

The Municipal Manual (part I.) Containing "The Municipal Act" (R. S. O. C.223) and the Amending Acts of 1898, 1899 and 1900. Viz.-61V. C. 23: 62V. (1st Session), Cc. 2 and 5: 62V (2nd Session) Cc. 26 and 30: and 63V. Cc. 9, 33, 35, 36 and 37, with Notes of Cases Bearing Thereon Charles C Thomas Publisher

Refined in detail through three editions, the manuals outstanding features include: an explanation of keys and how to use them; the inclusion of keys designed to identify by order or family extant mammals of the world; special sections containing comments and suggestions on identification;

information on working with map coordinates and global positioning receivers; coverage of the use of computer programs to get estimates of home-range size and characteristics; and ideas for locating reliable, authoritative literature on mammals. A section on techniques for studying mammals in the field and in the laboratory rounds out this student-friendly learning tool. Beautifully wrought illustrations and diagrams accurately portray visual details of mammal groups or characteristics that are unavailable to study in person. Moreover, well-designed laboratory exercises provide opportunities to apply knowledge and master understanding. Aids to Navigation Manual Addison Wesley Publishing Company
