Fairy Tales Transformed? DC

Fables Vol. 11: War and PiecesDC

Catalogue of the Books in General Literature in the Library of the Faculty of Procurators in Glasgow BRILL

In 2002, Vertigo/DC Comics published the first issue of Bill Willingham's Fables. The series imagined the lives of fairy tale figures--Snow White, the Big Bad Wolf, Cinderella and the ubiquitous Prince Charming, among many others--as they made new lives for themselves in modern-day New York City, having fled their storied homeworlds following an invasion. After 150 issues and many awards, Fables concluded its run in July 2015. This study, the first of the sprawling and complex series, discusses such topics as Fables' status as a contemporary adaptation of folk and fairy tales; its use of conventional genres like sword-and-sorcery, crime and romance; its portrayal of social and political relationships; and its self-referential moments. Providing a detailed introduction to the themes and ideas in the series, the author explores how Fables portrays redemption, the function of community, and how our hopes and fears influence our ideal of happily ever after.

FABLES is the winner of 14 Eisner Awards and is one of the most enduring Vertigo titles ever. Here, in this new, 10th anniversary edition, is a newly colored 8-page story from the Fables prose work PETER & MAX: A FABLES NOVEL, as well as a beautiful new cover from series artist Mark Buckingham.

When a savage creature known only as the Adversary conquered the fabled lands of legends and fairy tales, all of the infamous inhabitants of folklore were forced into exile. Disguised among the "mundys," their name for normal citizens of modern-day New York, these magical characters created their own secret society that they call Fabletown. From their exclusive luxury apartment buildings on Manhattan's Upper West Side, these creatures of legend must fight for their survival in the new world.

*A New Variorum Edition of Shakespeare CORIOLANUS Volume II* DC

John Podlaski's encore Vietnam War novel brings back John ('Polack') Kowalski, the central character in 'Cherries', and introduces us to Louis ('LG') Gladwell, his irrepressible black friend. Polack and LG are a 'Salt and Pepper' team, best buddies and brothers in a way that only those who have fought side-by-side in a war can ever truly understand. The year is 1970, and the story follows the two soldiers - impressionable Detroit teenagers - during their long night in a Listening Post ('LP'), some 500 meters beyond the bunker line of the new firebase. Their assignment as a "human early warning system", is to listen for enemy activity and forewarn the base of any potential dangers. As they were new to the "Iron Triangle" and its reputation, little did they know that units before them lost dozens of soldiers in this nightly high-risk task and referred to those assigned as "bait for the enemy" and "sacrificial lambs". Sitting in the pitch black tropical jungle - with visibility at less than two feet - John's imagination takes hold throughout the agonizing night, and at times, transports him back to some of his most vivid childhood memories - innocent, but equally terrifying at the time. As kids, we instinctively run as fast as we can to escape imaginary or

perceived danger, but as soldiers, men are trained to conquer their fears and develop the confidence to stand their ground and fight. Running is not an option. In 'When Can I Stop Running?' the author juxtaposes his nightmarish hours in the bush with some of his most heart-pounding childhood escapades. Readers will relate to the humorous childish antics with amusement; military veterans will find themselves relating to both of the entertaining and compelling recollections.
