**Swan Song** Bantam

WINNER OF THE PULITZER PRIZE • NATIONAL BESTSELLER • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). • From the bestselling author of *The Passenger* A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*.

Now, ponder the unthinkable and surrender to your darkest dread, as sinister storyteller extraordinaire John Saul weaves a heart-stopping tale of lurking terror and twisted intent. Every parent’s nightmare becomes reality for Kara Marshall when her daughter, Lindsay, vanishes from her bedroom during the night. The police suspect that the girl is just another moody teenage runaway, angry over leaving behind her school and friends because her family is moving. But Lindsay’s recent eerie claim—that someone invaded her room when the house was opened to prospective buyers—drives Kara to fear the worst: a nameless, faceless stalker has walked the halls of her home in search of more than a place to live. Patrick Shields recognizes Kara’s pain—and carries plenty of his own since he lost his wife and two children in a devastating house fire. But more than grief draws Patrick and Kara together. He, too, senses the hand of a malevolent stranger in this tragedy. And as more people go missing from houses up for sale, Patrick’s suspicion, like Kara’s, blooms into horrified certainty. Someone is trolling this peaceful community—undetected and undeterred—harvesting victims for a purpose no sane mind can fathom. Someone Kara and Patrick, alone and desperate, are determined to unmask. Someone who is even now watching, plotting, keeping a demented diary of unspeakable deeds . . . and waiting until the time is ripe for another fateful visit.

With a new Introduction by the author, this “erudite and brilliantly readable book” (The Observer, London) expertly dissects the political, economic, and social origins of Western civilization to reveal a culture cripplingly enslaved to crude notions of rationality and expertise. With a new introduction by the author, this “erudite and brilliantly readable book” (The Observer, London) astutely dissects the political, economic and social origins of Western civilization to reveal a culture cripplingly enslaved to crude notions of rationality and expertise. The Western world is full of paradoxes. We talk endlessly of individual freedom, yet we’ve never been under more pressure to conform. Our business leaders describe themselves as capitalists, yet most are corporate employees and financial speculators. We call our governments democracies, yet few of us participate in politics. We complain about invasive government, yet our legal, educational, financial, social, cultural and legislative systems are deteriorating. All these problems, John Ralston Saul argues, are largely the result of our blind faith in the value of reason. Over the past 400 years, our “rational elites” have turned the modern West into a vast, incomprehensible, directionless machine, run by process-minded experts—“Voltaire’s bastards”—whose cult of scientific management is empty of both sense and morality. Whether in politics, art, business, the military, entertainment, science, finance, academia or journalism, these experts share the same outlook and methods. The result, Saul maintains, is a civilization of immense technological power whose ordinary citizens are increasingly excluded from the decision-making process. In this wide-ranging anatomy of modern society and its origins—whose “pages explode with insight, style and intellectual rigor” (Camille Paglia, The Washington Post)—Saul presents a shattering critique of the political, economic and cultural establishments of the West.
