Coping with the strain of parental neglect and the elusive promise of U.S. citizenship, Talusan found comfort from her devoted grandmother, a grounding force as she was treated by others with special preference or public curiosity. As an immigrant to the United States, Talusan came to be perceived as white, and further access to elite circles of privilege but required Talusan to navigate through the complex spheres of race, class, sexuality, and queerness. Questioning the boundaries of gender, Talusan realized she did not want to be confined to a prescribed role as a man, and transitioned to become a woman, despite the risk of losing a man she deeply loved. Throughout her journey, Talusan shares poignant and powerful episodes of desirability and love that will remind readers of works such as *Call Me By Your Name* and *Giovanni's Room*.

Nunavut tigummiun! Hold on to the land! It was just fifty years ago that the territory of Alaska officially became the state of Alaska. But no matter who has staked their claim to the land, it has always had a way of enveloping souls in its vast, icy embrace. For William L. Iggiagruk Hensley, Alaska has been his home, his identity, and his cause. Born on the shores of Kotzebue Sound, twenty-nine miles north of the Arctic Circle, he was raised to live the traditional, seminomadic life that his Iñupiaq ancestors had lived for thousands of years. It was a life of cold and of constant effort, but Hensley's people also reaped the bounty that nature provided. In *Fifty Miles from Tomorrow*, Hensley offers us the rare chance to immerse ourselves in a firsthand account of growing up Native Alaskan. There have been books written about Alaska, but they've been written by Outsiders, settlers. Hensley's

memoir of life on the tundra offers an entirely new perspective, and his stories are captivating, as is his account of his devotion to the Alaska Native land claims movement. As a young man, Hensley was sent by missionaries to the Lower Forty-eight so he could pursue an education. While studying there, he discovered that the land Native Alaskans had occupied and, to all intents and purposes, owned for millennia was being snatched away from them. Hensley decided to fight back. In 1971, after years of Hensley's tireless lobbying, the United States government set aside 44 million acres and nearly \$1 billion for use by Alaska's native peoples. Unlike their relatives to the south, the Alaskan peoples would be able to take charge of their economic and political destiny. The landmark decision did not come overnight and was certainly not the making of any one person. But it was Hensley who gave voice to the cause and made it real. *Fifty Miles from Tomorrow* is not only the memoir of one man; it is also a fascinating testament to the resilience of the Alaskan ilitqusiats, the Alaskan spirit.

The Pulitzer Prize-nominated novel from the author of the New York Times bestselling novel *We Were the Mulvaney*s "Its power of evocation is remarkable." —The New Yorker In the midst of a long summer on Grayling Island, Maine, twenty-six-year-old Kelly Kelleher longs for something interesting to happen to her—something that will make her finally feel some of what she imagines other people must feel when they watch the fireworks explode off the beach. So when Kelly meets The Senator at an exclusive party and he asks her to go back to a hotel room on the main island with him, she says yes. Even though the senator is old enough to be her father, even though he has perhaps been drinking too heavily to get behind the wheel, the danger of saying yes is an inevitable and even exciting part of the adventure Kelly is finally going to have. However, as The Senator's car whips around the island's roads and eventually crashes through a guardrail, it becomes clear to Kelly and the reader that this man embodies a wholly different and more sinister type of danger, one much larger and harder to contain than the horrible events that unfold as Kelly is left in the sinking car. *Black Water* is a chilling meditation on power, trust, and violation and a timeless classic from one of America's foremost storytellers.

Fairest of All: A Tale of the Wicked Queen Zonderkidz

We think we know the story of Snow White from Disney and the

Brothers Grimm. But acclaimed folklorist Maria Tatar reveals dazzling variations from across the globe. The story of the rivalry between a beautiful, innocent girl and her equally beautiful and cruel mother has been endlessly repeated and refashioned all over the world. In Switzerland you might hear about seven dwarfs who shelter a girl, only to be murdered by robbers. In Armenia a mother orders her husband to kill his daughter because the moon has declared her “the most beautiful of all.” The Brothers Grimm gave this story the name by which we know it best, and in 1937 Walt Disney sweetened their somber version to make the first feature-length, animated fairy tale, *Snow White and the Seven Dwarfs*. Since then the Disney film has become our cultural touchstone—the innocent heroine, her evil stepmother, the envy that divides them, and a romantic rescue from domestic drudgery and maternal persecution. But, as every fan of the story knows, there is more to *Snow White* than that. The magic mirror, the poisoned apple, the catatonic sleep, and the strange scene of revivification are important elements in the phantasmagoria of the *Snow White* universe. Maria Tatar, an acclaimed folklorist and translator, brings to life a global melodrama of mother-daughter rivalries that play out across countries and cultures.

The Bowl Champion Series (BCS) is under fire from fans, the media, college coaches, Congress, and even our new President. They worry that the two best teams in the country aren’t consistently selected by the polls and the BCS computers to play for the National Championship. At stake is prestige, a place in history, recruiting advantages, and boatloads of cash. The solution proposed most often is a playoff system to give more schools a shot at a title. However, the problem of team selection won’t go away with a playoff system, it will be exacerbated. The lack of a credible ranking system is the Achilles’ heel of the current BCS system. *Cinderella’s Slipper* reveals why the polls get it wrong, why the BCS computers can’t be expected to get it right, why traditional statistics aren’t useful for ranking teams, and why won/lost records are misleading. *Cinderella’s Slipper* introduces the performance metrics necessary for team ranking and explains the rating system that can accurately rank teams with similar records. When combined with NCAA sponsorship and an accurate ranking system, a playoff scheme

will produce deserving champions and will restore public confidence in the college football National Championship process.
