Sleeping Beauty and

Cinderella do not live happily well as Arthurian legends and ever after. And the fairies are saucy, angry, and capricious. Fairy Tales for the Disillusioned collects thirty-six tales, most newly translated, by writers associated with the decadent literary movement that flourished in late nineteenth-century France. These enchanting yet troubling stories reflect the concerns and fascinations of a time of great political, social, and cultural change. Recasting well-known favorites from classic French fairy tales, as English and German tales, these decadent fairy tales feature perverse settings and disillusioned perspectives, underlining such themes as the decline of civilization, the degeneration of magic and the unreal, gender confusion, and the incursion of the industrial. Complete with an informative introduction, biographical notes for each author, and explanatory notes throughout, these subversive tales will entertain and startle even the most disenchanted readers.

textbook provides up-to-date coverage of all areas of the field, including recent developments within cognitive semantics (such as Primary Metaphor Theory, Conceptual Blending Theory, and Principled Polysemy), and cognitive approaches to grammar (such as Radical Construction Grammar and Embodied Construction Grammar). This book explores the idiosyncratic effects generated as fairytale and gothic horror join, clash or merge in cinema. Identifying long-held traditions that have inspired this topical phenomenon, the book features close analysis of classical through to contemporary films. It begins by tracing fairytale and gothic origins and evolutions, examining the diverse ways these have been embraced and developed

by cinema horror. It moves on to investigate films close up, locating fairytale horror, motifs and themes and a distinctively cinematic gothic horror. At the book's core are recurring concerns including: the boundaries of the human; rational and irrational forces; fears and dreams; 'the uncanny' and transitions between the wilds and civilization. While chronology shapes the book, it is thematically driven, with an interest in the cultural

and political functions of fairytale and gothic horror, and the levels of transgression or social conformity at the heart of the films.
