Simple Law, Incorporated The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before,

during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bipartisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market

regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." "I want to stick with what the Bible says.

No compromise." The church has operated on the assumption that all divorce is always sin and disqualifies every man as serving as a pastor, elder, or deacon. Variations from that position have been viewed as compromise of the Word of God. After studying every passage in the Bible that deals with divorce and remarriage, Dave Miller has come to a different position. In *Disqualified*, he examines the Old Testament evidence that sets the cornerstone and lays the foundation of the biblical teaching, then looks at the framework constructed in Jesus' radical teachings. He examines the finishing touches put on by Paul, especially in 1 Corinthians 7, establishing the key biblical teachings on divorce, remarriage, and ministry. God's intent from creation was that marriage be a lifelong covenant between one man and one woman, but in a

world broken by sin also granted exceptions based on the "hardness of the human heart." After surveying the biblical evidence, Dave Miller asks several key questions for individuals and churches to consider. Have those who been divorced been permanently disqualified from leadership positions in churches? What does the phrase, "husband of one wife" mean? The church cannot ignore this subject and must search the Scriptures to seek the mind of Christ on it. Simply relying on tradition or doing what pleases people is not sufficient. God's word is always right and Dave Miller is convinced that we need to take a new look at this difficult topic.

The Standards of Conduct Office of the Department of Defense General Counsel's Office has assembled an "encyclopedia" of cases of ethical failure for use as a training tool. These are real examples of Federal employees who have intentionally or unwittingly violated standards of conduct. Some cases are humorous, some sad, and all are real. Some will anger you as a Federal employee and some will anger you as an American taxpayer. Note the multiple jail and probation

sentences, fines, employment terminations and other sanctions that were taken as a result of these ethical failures. Violations of many ethical standards involve criminal statutes. This updated (end of 2009) edition is organized by type of violations, including conflicts of interest, misuse of Government equipment, violations of post-employment restrictions, and travel.

Council, describes megatrends and potential game changers for the next decades. Among the megatrends, it analyzes: - increased individual empowerment - the diffusion of power among states and the ascent of a networked multi-polar world - a world's population growing to 8.3 billion people, of which sixty percent will live in urbanized areas, and surging cross-border migration - expanding demand for food, water, and energy It furthermore describes potential game changers, including: - a global economy that could thrive or collapse - increased global insecurity due to regional instability in the Middle East and South Asia - new technologies that could solve the problems caused by the megatrends - the possibility, but by no means the certainty, that the U.S. with new partners will reinvent the international system

Students of trends, forward-looking entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades will find this essential reading.

Divorce-Texas Style Simon and Schuster "A devastating and infuriating book, more astonishing than any legal thriller by John Grisham" (The New York Times) about a young father who spent twenty-five years in prison for a crime he did not commit...and his eventual exoneration and return to life as a free man. On August 13, 1986, just one day after his thirty-second birthday, Michael Morton went to work at his usual time. By the end of the day, his wife Christine had been savagely bludgeoned to death in the couple's bed—and the Williamson County Sherriff's office in Texas

wasted no time in pinning her murder on Michael, despite an absolute lack of physical evidence. Michael was swiftly sentenced to life in prison for a crime he had not committed. He mourned his wife from a prison cell. He lost all contact with their son. Life, as he knew it, was over. Drawing on his recollections, court transcripts, and more than 1,000 pages of personal journals he wrote in prison, Michael recounts the hidden police reports about an unidentified van parked near his house that were never pursued; the bandana with the killer's DNA on it, that was never introduced in court; the call from a neighboring county reporting the attempted use of his wife's credit card, which was never followed up on; and

ultimately, how he battled his way through the darkness to become a free man once again. "Even for readers who may feel practically jaded about stories of injustice in Texas—even those who followed this case closely in the press—could do themselves a favor by picking up Michael Morton's new memoir...It is extremely well-written [and] insightful" (The Austin Chronicle). Getting Life is an extraordinary story of unfathomable tragedy, grave injustice, and the strength and courage it takes to find forgiveness. The Child Is the Teacher DIANE Publishing

A fresh, comprehensive biography of the pioneering educator and activist who changed the way we look at children's minds, from the author of *Oriana Fallaci*. Born in 1870 in Chiaravalle, Italy, Maria Montessori would grow up to embody almost every trait men of her era detested in the fairer sex. She was self-confident, strong-willed, and had a fiery temper at a time when women were supposed to be soft and pliable. She studied until she became a doctor at a time when female graduates in Italy provoked outright scandal. She never wanted to marry or have children—the accepted destiny for all women of

her milieu in late nineteenth-century bourgeois Rome—and when she became pregnant by a colleague of hers, she gave up her son to continue pursuing her career. At around age thirty, Montessori was struck by the condition of children in the slums of Rome's San Lorenzo neighborhood, and realized what she wanted to do with her life: change the school, and therefore the world, through a new approach to the child's mind. In spite of the resistance she faced from all sides—scientists accused her of being too mystical, and the clergy of being too scientific, traditionalists of giving children too much freedom, and anarchists of giving them too much structure—she would garner

acclaim and establish the influential Montessori method, which is now practiced throughout the world. A thorough, nuanced portrait of this often controversial woman, *The Child Is the Teacher* is the first biographical work on Maria Montessori written by an author who is not a member of the Montessori movement, but who has been granted access to original letters, diaries, notes, and texts written by Montessori herself, including an array of previously unpublished material. *Why Does He Do That?* NOLO This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses

the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims,

the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They

propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.
