Katharine Graham, Lorraine Cooper, and Sally  
Quinn, while offering insight into Washington life in  
the late twentieth century.

Digital and Social Media Marketing John  
Wiley & Sons

Whether you're designing consumer  
electronics, medical devices, enterprise  
Web apps, or new ways to check out at the  
supermarket, today's digitally-enabled  
products and services provide both great  
opportunities to deliver compelling user  
experiences and great risks of driving your  
customers crazy with complicated,  
confusing technology. Designing successful  
products and services in the digital age  
requires a multi-disciplinary team with  
expertise in interaction design, visual  
design, industrial design, and other  
disciplines. It also takes the ability to come

up with the big ideas that make a desirable  
product or service, as well as the skill and  
perseverance to execute on the thousand  
small ideas that get your design into the  
hands of users. It requires expertise in  
project management, user research, and  
consensus-building. This comprehensive,  
full-color volume addresses all of these and  
more with detailed how-to information, real-  
life examples, and exercises. Topics include  
assembling a design team, planning and  
conducting user research, analyzing your  
data and turning it into personas, using  
scenarios to drive requirements definition  
and design, collaborating in design  
meetings, evaluating and iterating your  
design, and documenting finished design in  
a way that works for engineers and  
stakeholders alike.

Designing for the Digital Age Light  
Technology Publishing

This book examines issues and  
implications of digital and social media  
marketing for emerging markets. These  
markets necessitate substantial  
adaptations of developed theories and  
approaches employed in the Western  
world. The book investigates problems  
specific to emerging markets, while  
identifying new theoretical constructs  
and practical applications of digital  
marketing. It addresses topics such as  
electronic word of mouth (eWOM),  
demographic differences in digital  
marketing, mobile marketing, search  
engine advertising, among others. A  
radical increase in both temporal and  
geographical reach is empowering  
consumers to exert influence on  
brands, products, and services.  
Information and Communication  
Technologies (ICTs) and digital media  
are having a significant impact on the  
way people communicate and fulfil their  
socio-economic, emotional and  
material needs. These technologies are  
also being harnessed by businesses for  
various purposes including distribution  
and selling of goods, retailing of  
consumer services, customer  
relationship management, and  
influencing consumer behaviour by  
employing digital marketing practices.  
This book considers this, as it  
examines the practice and research  
related to digital and social media  
marketing.

An annual publication that profiles important marketing campaigns of the 20th century.

### **Austin and Morris Mini-Cooper and Cooper "S"** Random House

The revealing and surprising inside story of the legendary BMC Works Competitions Department told by the three Competition Managers of the highly successful BMC/British Leyland race and rally teams based at Abingdon. The book reveals the inner workings and machinations of one of the most successful motor sport teams Britain has ever seen. Based on previously unpublished internal memos and documents, and the recollections of the prime movers, the book describes the ups and downs, and the politics of big time competition in an exciting era. An excellent and entertaining read and an important factual documentation, no motor sport enthusiast should be without this book.

The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bipartisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY

SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. He has since written three books on the subject including *Plunder: Investigating Our Economic Calamity* (Cosimo Books, 2008), and *The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail* (Disinfo Books, 2011), a companion to his latest film *Plunder The Crime Of Our Time*. *The Billboard* Skyhorse Publishing Inc. Mini celebrates 60 amazing years of this iconic car, from its revolutionary introduction to the popularity of its new-generation models. The first two-door Mini, introduced in 1959 and built until 2000, revolutionized automotive design with its innovative front-wheel-drive layout that made the car appear bigger on the inside than the outside. In 1999, the Mini was voted the second most influential car of the 20th century, behind the Ford Model T. Designed for British Motor Corporation (BMC) by Sir Alec Issigonis and manufactured in England, Australia, Spain, Belgium, Chile, Italy, Portugal, South Africa, Uruguay, Venezuela, and Yugoslavia, the Mini was as successful in competition as it was on the street, winning the Monte Carlo Rally four times from 1964 through 1967. Originally built by BMC, the Mini's later parent company, Rover, was acquired by BMW in 1994. In 2000, BMW sold most of the Rover Group but retained the Mini brand. The last and 5,387,862nd original Mini rolled off the production line in October 2000. In July 2001, BMW launched production of the new-generation of Mini which was soon joined by Countryman, Clubman, convertible, Cooper Works, and numerous special editions. Nearly 20 years later, the new Minis remain as popular as the original from 1959.

**Clubman, Con** National Historic Sites  
Parks Service Environment Canada  
From the award-winning author of *Sandworm* comes the propulsive story of a new breed of investigators who have cracked the Bitcoin blockchain, exposing once-anonymous realms of money, drugs, and violence. "I love the book... It reads like a thriller... These stories are amazing." (Michael Lewis) Over the last decade, a single innovation has massively fueled digital black markets: cryptocurrency. Crime lords inhabiting lawless corners of the internet have operated more freely—whether in drug dealing, money laundering, or human trafficking—than their analog counterparts could have ever dreamed of. By transacting not in dollars or pounds but in currencies with anonymous ledgers, overseen by no government, beholden to no bankers, these black marketeers have sought to rob law enforcement of their chief method of cracking down on illicit finance: following the money. But what if the centerpiece of this dark economy held a secret, fatal flaw? What if their currency wasn't so cryptic after all? An investigator using the right mixture of technical wizardry, financial forensics, and old-fashioned persistence could uncover an entire world of wrongdoing. *Tracers in the Dark* is a story of crime and pursuit unlike any other. With unprecedented access to the major players in federal law enforcement and private industry, veteran cybersecurity reporter Andy Greenberg tells an astonishing saga of criminal empires built and destroyed. He introduces an IRS agent with a defiant streak, a Bitcoin-tracing Danish entrepreneur, and a colorful ensemble of hardboiled agents and prosecutors as they delve deep into the crypto-underworld. The result is a thrilling, globe-spanning story of dirty cops, drug bazaars, trafficking rings, and the biggest

takedown of an online narcotics market in the history of the Internet. Utterly of our time, *Tracers in the Dark* is a cat-and-mouse story and a tale of a technological one-upmanship. Filled with canny maneuvering and shocking twists, it answers a provocative question: How would some of the world's most brazen criminals behave if they were sure they could never get caught?

*How Cars Work* HarperCollins

A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church  
What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

*The Financial Crisis Inquiry Report*

John Wiley & Sons

The essential companion to Cooper and Cooper S models from the 997cc MkI to the late 1275cc MkIII, including the Italian Innocentis, the Spanish-built Authis, Australian versions, and the Rover Coopers. Exhaustive research yields a wealth of heretofore unpublished information.

*The Way of the Rose* Penguin

Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as

he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.
