Fanuc Series Oi - Model D ... This sounds to me like I would be manually moving the stop. I want to avoid any manual moves, hence programming a floating stop. I understand its hard to

visualize. The stop needs to come in between the ribs so I can rest the sides against the stop. I have about 1/2" of leeway without the stop plunging into the top ...

Users must also observe
the safety precautions
related to the machine, as
described in the relevant
manual supplied by the
machine tool builder.

Before checking the
operation of the machine,
take time to become
familiar with the manuals
provided by the machine
tool builder and FANUC.
