A Farm for the Future on Vimeo
Farms with a Future raises a lot of great points but, perhaps necessarily, due to the highly variable nature of farm enterprises, gives few specifics. It seems like a great tool to help farmers think of all the important aspects of decisions about their business, and for that I might come back to it in the future.

Farms with a Future: Creating and Growing a Sustainable ...

The Farm of the future project will be the hub of a French and international network (initially Brazil and then Asia) of connected Farms of the future. This network will include farms owned by Neovia (Neovia's research centres around the world) as well as private partners or public farms.

The Farms of the Future - Local Futures

The Energy Department's recently released Wind Vision Report analyzes a robust wind energy future and quantifies the environmental, social, economic benefits from wind through 2050. As a part of this scenario, more than 600,000 wind-related jobs could be supported, accelerating the already tremendous growth of the American wind industry. ...

Farms with a Future: Creating and Growing a Sustainable ...
How are we going to feed everyone? Investment-banker-turned-farmer Stuart Oda points to indoor vertical farming: growing food on tiered racks in a controlled, climate-proof environment. In a forward-looking talk, he explains how this method can maintain better safety standards, save money, use less water and help us provide for future generations.

The Future Is Now

" Farms with a Future should be handed out to every budding young farmer in America. Thistlethwaite guides us through the daunting process of creating a viable small farm by sharing hard-earned lessons of her own, and from experienced farmers she met while researching this book.
