From the bestselling, National Book Award-nominated author of *Genius and Chaos*, a bracing new work about the accelerating pace of change in today's world. Most of us suffer some degree of "hurry sickness," a malady that has launched us into the "epoch of the nanosecond," a need-everything-yesterday sphere dominated by cell phones, computers, faxes, and remote controls.

...

That, anyway, is the impression most of us have of civilized

life at the end of the millennium, and *Faster: The Acceleration of Just About Everything* only sharpens it. Elegantly composed and insightfully researched, *Faster* delivers a brisk volley of observations on how microchips, media, and economics, among other things, have accelerated the pace of everyday experience over the course of the manic 20th century.

Amazon.com: *Faster: The Acceleration of Just About ...*

'*Faster: The Acceleration of just about Everything*' by James Gleick, published in the year 2000, is thus a useful time capsule in showing that back then everyone thought that life was far too fast as well. The theory that life is speeding up is widely held, even if the evidence for it is patchy and somewhat of a social cons

James Gleick. Review by Roger Miller. September 1999.

The faster I go, the behinder I get, runs the rustic saw, which would have made a good epigraph to James Gleick's *Faster: The Acceleration of Just About Everything*. For that matter, so would the famous cry from Walt Kelly's comic strip, Pogo, We have met the enemy, and he is us, because in just about everything we modern Westerners do concerning time, we are our own worst enemy.
