Civil War, an aging itinerant news reader agrees to transport a young captive of the Kiowa back to her people in this exquisitely rendered, morally complex, multilayered novel of historical fiction from the author of *Enemy Women* that explores the boundaries of family, responsibility, honor, and trust. In the wake of the Civil War, Captain Jefferson Kyle Kidd travels through northern Texas, giving live readings from newspapers to paying audiences hungry for news of the world. An elderly widower who has lived through three wars and fought in two of them, the captain enjoys his rootless, solitary existence. In Wichita Falls, he is offered a \$50 gold piece to deliver a young orphan to her relatives in San Antonio. Four years earlier, a band of Kiowa raiders killed Johanna's parents and sister; sparing the little girl, they raised her as one of their own. Recently rescued by the U.S. army, the ten-year-old has once again been torn away from the only home she knows. Their 400-mile journey south through unsettled territory and unforgiving terrain proves difficult and at times dangerous.

Johanna has forgotten welcome. The captain the English language, must hand Johanna tries to escape at over to an aunt and every opportunity, uncle she does not throws away her remember—strangers shoes, and refuses to who regard her as an act "civilized." Betrayer of Worlds Orbit Spearpoint, the last human city, is an atmosphere-piercing spire of vast size. Clinging to its skin are the zones, a series of semi-autonomous city-states, each of which enjoys a different - and rigidly enforced - level of technology. Horsetown is pre-industrial; in Neon Heights they have television and electric

trains ... Following an infiltration mission that went tragically wrong, Quillon has been living incognito, working as a pathologist in the district morgue. But when a near-dead angel drops onto his dissecting table, Quillon's world is wrenched apart one more time, for the angel is a winged posthuman from Spearpoint's Celestial Levels - and with the dying body comes bad news. If Quillon is to save his life, he must leave his home

and journey into the cold and hostile lands beyond Spearpoint's base, starting an exile that will take him further than he could ever imagine. But there is far more at stake than just Quillon's own survival, for the limiting technologies of the zones are determined not by governments or police, but by the very nature of reality - and reality itself is showing worrying signs of instability ...
The Last Book in the Universe (Scholastic Gold)

HarperCollins
The history of art has produced few works as ambitious and as valuable as the Amber Room. Famous throughout Europe as "the eighth wonder of the world," its vast and intricately worked amber panels were sent in 1717 by Frederick I of Prussia as a gift to Peter the Great of Russia. Erected some years later, they quickly became a symbol of Russia's imperial might. For more than two hundred years the Amber Room remained in its Russian palace outside St.

Petersburg (Leningrad), but when the Nazi army invaded Russia and swept towards Leningrad in 1941, the panels were wrenched from the walls, packed into crates, and disappeared from view, never to be seen again. Dozens of people have tried to trace the whereabouts of the Amber Room, and several of them have died in mysterious circumstances. Adrian Levy and Catherine Scott-Clark have gone further along the trail of this great lost treasure than anyone before them, and have unraveled the jumble of evidence surrounding its fate. Their search catapulted them across eastern Europe and into the menacing world of espionage and counterespionage that still surrounds Russia and the former Soviet bloc. In archives in St. Petersburg and Berlin, amid boxes of hitherto unseen diaries, letters, and classified reports, they have uncovered for the first time an astounding conspiracy to hide the truth. In a gripping climax that is a triumph of detection and narrative journalism, *The Amber Room* shows incontrovertibly what really happened to the most valuable lost artwork in the world, and why the truth has been withheld for so long.

Children of Time BoD – Books on Demand

This fast-paced action novel is set in a future where the world has been almost destroyed. Like the award-winning novel *Freak the Mighty*, this is Philbrick at his very best. It's the story of

an epileptic teenager nicknamed Spaz, who begins the heroic fight to bring human intelligence back to the planet. In a world where most people are plugged into brain-drain entertainment systems, Spaz is the rare human being who can see life as it really is. When he meets an old man called Ryter, he begins to learn about Earth and its past. With Ryter as his companion, Spaz sets off an unlikely quest to save his dying sister -- and in the process, perhaps the world.

speculative thriller about an ordinary man who awakens in a world inexplicably different from the reality he thought he knew—from the author of Upgrade, Recursion, and the Wayward Pines trilogy “Are you happy with your life?” Those are the last words Jason Dessen hears before the kidnapper knocks him unconscious. Before he awakens to find himself strapped to a gurney, surrounded by strangers in

hazmat suits. Before a man he’s never met smiles down at him and says, “Welcome back, my friend.” In this world he’s woken up to, Jason’s life is not the one he knows. His wife is not his wife. His son was never born. And Jason is not an ordinary college professor but a celebrated genius who has achieved something remarkable. Something impossible. Is it this life or the other that’s the dream? And even if the home he remembers is real, how will Jason make it back to the family he loves? From the bestselling author Blake Crouch, Dark Matter is a mind-bending thriller about choices,

paths not taken, and how far we'll go to claim the lives we dream of.

Fate of Worlds Hachette UK

This account of the sophisticated financial hub that was 17th-century Amsterdam “does a fine job of bringing history to life” (Library Journal). The launch of the Dutch East India Company in 1602 initiated Amsterdam’s transformation from a regional market town into a dominant financial center. The Company introduced easily transferable shares, and within days buyers had begun to trade them. Soon the public was engaging in a variety of complex transactions,

including forwards, futures, options, and bear raids, and by 1680 the techniques deployed in the Amsterdam market were as sophisticated as any we practice today. Lodewijk Petram’s award-winning history demystifies financial instruments by linking today’s products to yesterday’s innovations, tying the market’s operation to the behavior of individuals and the workings of the world around them. Traveling back in time, Petram visits the harbor and other places where merchants met to strike deals. He bears witness to the goings-on at a notary’s office and sits in on the consequential proceedings of a

courtroom. He describes in detail the main players, investors, shady characters, speculators, and domestic servants and other ordinary folk, who all played a role in the development of the market and its crises. His history clarifies concerns that investors still struggle with today—such as fraud, the value of information, trust and the place of honor, managing diverging expectations, and balancing risk—and does so in a way that is vivid, relatable, and critical to understanding our contemporary world.

Light of the Stars: Alien Worlds and the Fate of the Earth Penguin

Winner of the 2019 Phi Beta Kappa Award for Science "A valuable perspective on the most important problem of our time." —Adam Becker, NPR Light of the Stars tells the story of humanity's coming of age as we realize we might not be alone in this universe. Astrophysicist Adam Frank traces the question of alien life from the ancient Greeks to modern thinkers, and he demonstrates that recognizing the possibility of its existence might be the key to save us from climate change. With clarity and

conviction, *Light of the Stars* asks the consequential question: What can the likely presence of life on other planets tell us about our own fate?

Adrian Tchaikovsky's award-winning novel *Children of Time*, is the epic story of humanity's battle for survival on a terraformed planet. Who will inherit this new Earth? The last remnants of the human race left a dying Earth, desperate to find a new home among the stars. Following in the footsteps of their ancestors, they

discover the greatest treasure of the past age—a world terraformed and prepared for human life. But all is not right in this new Eden. In the long years since the planet was abandoned, the work of its architects has borne disastrous fruit. The planet is not waiting for them, pristine and unoccupied. New masters have turned it from a refuge into mankind's worst nightmare. Now two civilizations are on a collision course, both testing the boundaries of what they will do to survive. As the fate of

humanity hangs in the balance, who are the true heirs of this new Earth?

The science fiction masterpiece of man versus alien that inspired generations, from Orson Welles's classic radio play to the film starring Tom Cruise. At the turn of the

twentieth century, few would believe that mankind is being watched from above. But millions of miles from Earth, the lords of the Red Planet prepare their armies for invasion, waiting for the moment to strike. When they land in the English countryside, baffled humans approach, waving white flags, and the Martians burn them to a crisp. The war has begun, and mankind doesn't stand a chance. As Martian armies roll across England, one man fights to keep his family safe, risking his life—and his sanity—on the front lines of the greatest war in galactic history. H. G. Wells's groundbreaking novel, adapted to radio and film, among other mediums, by visionary artists from Orson Welles to Steven Spielberg, remains one of the most chilling, unforgettable works of science fiction ever written. This ebook has been professionally proofread to ensure accuracy and readability on all devices.
