This team of international experts analyses the possibilities and limitations of preventing or reducing terrorism by addressing the factors that give rise to it and sustain it. The key questions raised include: * what are the main circumstances that provide preconditions for the emergence of various types of terrorism? * what are the typical precipitants that trigger terrorist campaigns? * to what extent is it possible to reduce the problem of terrorism by influencing these causes and circumstances? * should we address those factors that sustain terrorist campaigns rather than root causes? This book is edited by Tore Bjørge - Senior Research Fellow at the Norwegian Institute of International Affairs (NUPI), Professor and Research Director at the Norwegian Police University College. This book explores responses to authoritarianism in Turkish society through popular culture by examining feature films and television serials produced between 1980 and 2010 about the 1980 coup. Envisioned as an interdisciplinary study in cultural studies rather than a disciplinary work on cinema, the book advocates for an understanding of popular culture in discerning emerging narratives of nationhood. Through feature films and television serials directly dealing with the coup of 1980, the book exposes tropes and discursive continuities such as "childhood" and "the child". It argues that these conventional tropes enable popular debates on the modern nation's history and its myths of identity.

In order to understand the true message and spirit of the Holy Quran, it is essential to know the language it has been revealed in. The first step is to understand the meaning of individual words. One needs to understand how words were used by the ancient Arabs by the time of Quranic revelation, and not depend on anyone's explanation or understanding as to what they mean today. Along with proper understanding of Arabic grammar, the true meanings of Quranic words, and their use with respect to the context in which they have been revealed in, one student of Quran may get closer to the Truth. The task of creating a Quranic dictionary or encyclopedia that would explain the classical meanings of Quranic words and their use along with significance was undertaken by Allama Ghulam Ahmed Parwez in 1960, where he compiled Lughat-ul-Quran in Urdu language. Now this dictionary has been translated to English by Quranic Education Society in Norway, in order to appeal to a larger audience worldwide and to inspire modern Quranic students.

Built in the sixteenth and seventeenth centuries, India's Mughal monuments—including majestic forts, mosques, palaces, and tombs, such as the Taj Mahal—are world renowned for their grandeur and association with the Mughals, the powerful Islamic empire that once ruled most of the subcontinent. In *Monumental Matters*, Santhi Kavuri-Bauer focuses on the prominent role of Mughal architecture in the construction and contestation of the Indian national landscape. She examines the representation and eventual preservation of the monuments, from their disrepair in the colonial past to their present status as protected heritage sites. Drawing on theories of power, subjectivity, and space, Kavuri-Bauer's interdisciplinary analysis encompasses Urdu poetry, British landscape painting, imperial archaeological surveys, Indian Muslim identity, and British tourism, as well as postcolonial nation building, World Heritage designations, and conservation mandates. Since Independence, the state has attempted to construct a narrative of Mughal monuments as symbols of a unified, secular nation. Yet modern-day sectarian violence at these sites continues to suggest that India's Mughal monuments remain the

transformative spaces—of social ordering, identity formation, and national reinvention—that they have been for centuries.

The Reconstruction of Religious Thought in Islam (1930) is Muhammad Iqbal's major philosophic work: a series of profound reflections on the perennial conflict among science, religion, and philosophy, culminating in new visions of the unity of human knowledge, of the human spirit, and of God. Iqbal's thought contributed significantly to the establishment of Pakistan, to the religious and political ideals of the Iranian Revolution, and to the survival of Muslim identity in parts of the former USSR. It now serves as new bridge between East and West and between Islam and the other Religions of the Book. With a new Introduction by Javed Majeed, this edition of *The Reconstruction* opens the teachings of Iqbal to the modern, Western reader. It will be essential reading for all those interested in Islamic intellectual history, the renewal of Islam in the modern world, and political theory of Islam's relationship to the West.

However, for an important segment of the poor Muslim populations of Asia, madrasas constitute the only accessible form of education. Gradually since 2003, Turkey's autocratic leader Recep Tayyip Erdogan has sought to make Turkey a great power -- in the tradition of past Turkish leaders from the late Ottoman sultans to Ataturk, the founder of modern Turkey. Here the leading authority Soner Cagaptay, author of *The New Sultan* -- the first biography of President Erdogan -- provides a masterful overview of the power politics in the Middle East and Turkey's place in it. Erdogan has picked an unorthodox model in the context of recent Turkish history, attempting to cast his country as a stand-alone Middle Eastern power. In doing so Turkey has broken ranks with its traditional Western allies, including the United States and has embraced an imperial-style foreign policy which has aimed to restore Turkey's Ottoman-era reach into the Arabian Middle East and the Balkans. Today, in addition to a domestic crackdown on dissent and journalistic freedoms, driven by Erdogan's style of governance, Turkey faces a hostile world. Ankara has nearly no friends left in the Middle East, and it faces a threat from resurgent historic adversaries: Russia and Iran. Furthermore, Turkey cannot rely on the unconditional support of its traditional Western allies. Can Erdogan deliver Turkey back to safety? What are the risks that lie ahead for him, and his country? How can Turkey truly become a great power, fulfilling a dream shared by many Turks, the sultans, Ataturk, and Erdogan himself?

"Why has the valley of Kashmir, famed for its beauty and tranquillity, become a major flashpoint, threatening the stability of a region of great strategic importance and challenging the integrity of the Indian state? This book examines the Kashmir conflict in its historical context, from the period when the valley was an independent kingdom right up to the struggles of the present day. Located on the borders of China, Central Asia and the Sub-Continent, the insurgency in the valley has also created serious tensions between India and Pakistan. Drawing upon research in India and Pakistan, as well as historical sources, this book traces the origins of the state in the 19th century and the controversial "sale" by the British of the predominantly Muslim valley to a Hindu Maharaja in 1846. Through an exploration of the implications for Kashmir of independence in 1947, it gives a critical

account of why, for Kashmir, self-determination may seem a more attractive option than affiliation to a larger multi-racial whole."--
