To address this problem, many policymakers suggest that reading coaches-master teachers who offer ongoing on-site instructional support for teachers-can improve teachers' practice and students' literacy skills. RAND researchers evaluated the middle school reading coach program in Florida to answer these questions: How is the program being implemented by the state, districts, schools, and individual coaches? What is the impact of coaching on teachers' practice and students' achievement in reading and mathematics? What features of reading coach models and practices are associated with better outcomes?

Many times during the year I hear teachers and parents say how easy testing is as long as the student applies themselves. After seventeen years working with the military and observing how they train and prepare War fighters in the crawl, walk, and run philosophy of training the one thing that has shined the brightest whether it is the military, a sports event, giving a speech, or even doing chores around the house is that practice, practice and more practice prepares you better no matter what stage of learning you are in. That is why I have created the FCAT 3rd Grade Study Guide which contains fifty (50) FCAT Math and fifty (50) FCAT Reading practice questions to aid the earlier learners with practice, practice, and more practice. Additionally there is the FCAT 3rd Grade Answer Key Booklet that accompanies this book. So remember no matter what you do, or how technology brings it to you practice will make you do it better.
