ADR in the Workplace DIANE Publishing

A History of Alternative Dispute Resolution offers a comprehensive review of the various types of peaceful practices for resolving conflicts. Written by Jerome Barrett—a longtime practitioner, innovator, and leading historian in the field of ADR—and his son Joseph Barrett, this volume traces the evolution of the ADR process and offers an overview of the precursors to ADR, including negotiation, arbitration, and mediation. The authors explore the colorful beginnings of ADR using illustrative examples from prehistoric Shaman through the European Law Merchant. In addition, the book offers the historical context for the use of ADR in the arenas of diplomacy and business.

Dispute System Design walks readers through the art of successfully designing a system for preventing, managing, and resolving conflicts and legally-framed disputes. Drawing on decades of expertise as instructors and consultants, the authors show how dispute systems design can be used within all types of organizations, including business firms, nonprofit organizations, and international and transnational bodies. This book has two parts: the first teaches readers the foundations of Dispute System Design (DSD), describing bedrock concepts, and case chapters exploring DSD across a range of experiences, including public and community justice, conflict within and beyond organizations, international and comparative systems, and multi-jurisdictional and complex systems. This book is intended for anyone who is interested in the theory or practice of DSD, who uses or wants to understand mediation, arbitration, court trial, or other dispute resolution processes, or who designs or improves existing processes and systems.

Arbitration, mediation, and other forms of alternative dispute resolution now have largely replaced litigation as the means of resolving all kinds of employment disputes in a variety of workplaces. These dispute resolution processes fundamentally alter the advocate s role and even the definition of employee legal rights. Disputes involving unionized workers have been resolved in arbitration for more than fifty years, but increasingly the process is being adapted to address the statutory and common law rights of nonunion employees. Issues such as employment discrimination that earlier would have been litigated are often now resolved in mediation. This textbook uses essays, arbitration awards, and court decisions to bring to the classroom the reality of contemporary workplace decision-making. It comprehensively addresses the substance and procedure for arbitration, mediation, and other dispute resolution mechanisms. The employment arbitration materials, in particular, *Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 2000: Related agencies* GovAmerica.org Contains 1,412 assistance programs administered by 57 Federal agencies in agriculture, crime control, education, employment and training, health and human services, housing and homeownership, and science and technology. Federal Dispute Resolution provides a much-needed guide to using alternative dispute resolution in matters involving the federal government. This helpful resource is appropriate for anyone involved in the ADR process, including those who represent the government and those who have disputes with the government. In a highly accessible format, Federal Dispute Resolution offers valuable information about the benefits of the ADR process and outlines the laws and regulations that govern this burgeoning field. The book includes vital instructions on how to determine which disputes are best suited to ADR and how to select the type of ADR process that is most appropriate for a particular situation. It also includes step-by-step guidance on how to prepare for ADR and offers suggestions on how to advocate effectively in ADR. Received 2004 Best Book Award from the CPR Institute for Dispute Resolution

Reauthorization of the Administrative Dispute Resolution Act A&C Black

An in-depth look at the institutionalization of alternative dispute resolution (ADR) processes in the federal and state regulatory arenas over the past twenty-five years, this volume showcases the value of these processes and highlights the potential for their expanded application and growth. It describes ADR techniques, how to use them, and how to integrate them into existing processes, using examples from the Federal Energy Regulatory Commission and three state utility regulatory commissions. The book recounts ADR successes, recognizing that traditional litigative methods may not always meet the needs of agencies, the parties, or the public. Institutionalizing these processes requires a systematic commitment to different approaches to problem-solving and, ultimately, cultural change. The authors spearheaded initiatives to integrate these processes and skills at the federal level. Drawing from valuable insights gained from their experience, the authors introduce a versatile new ADR system design model, the Voices of Value, which aims to enhance input, creativity, and effectiveness in regulatory and other public arenas as well as the private sector.

Annual Report - Federal Mediation and Conciliation Service

This book proposes a principled approach to the regulation of dispute resolution. It covers dispute resolution mechanisms in all their varieties, including negotiation, mediation, conciliation, expert opinion, mini-trial, ombud procedures, arbitration and court adjudication. The authors present a transnational Guide for Regulating Dispute Resolution (GRDR). The regulatory principles contained in this Guide are based on a functional taxonomy of dispute resolution mechanisms, an open normative framework and a modular structure of regulatory topics. The Guide for Regulating Dispute Resolution is formulated and commented upon in a concise manner to assist legislators, policy-makers, professional associations, practitioners and academics in thinking about which solutions best suit local and regional circumstances. The aim of this book is to contribute to the understanding and development of the legal framework governing national and international dispute resolution. Theory, empirical research and regulatory models have been taken from the wealth of experience in 12 jurisdictions: Austria, Belgium, Denmark, England and Wales, France, Germany, Italy, Japan, the Netherlands, Norway, Switzerland and the United States of America. Experts with a background in academia, practice and law-making describe and analyse the regulatory framework and social reality of dispute resolution in these countries. On this basis the authors draw conclusions about policy choices, regulatory strategies and the practice of conflict resolution. This title is included in Bloomsbury Professional's International Arbitration online service.
