Register. If you are a new customer, register now for access to product evaluations and purchasing capabilities. Need access to an account? If your company has an existing Red Hat account, your organization administrator can grant you access.

*17.3. Standards - Fedora Project*

ATA devices must report appropriate information via the

IDENTIFY DEVICE command. ATA devices only report I/O parameters for `physical_block_size`, `logical_block_size`, and `alignment_offset`. The additional I/O hints are outside the scope of the ATA Command Set.
