What is Nigel Farage's favorite novel? Why do Brexiteers love Sherlock Holmes? Is Philip Larkin the best Brexit poet ever? Through the politically relevant sideroad of English Literature, writ large, John Sutherland quarries the great literary minds of English history to assemble the ultimate reading list for Brexiteers. Brexit shook Britain to its roots and sent shockwaves across the world. But despite the referendum victory, Brexit is peculiarly hollow. It is an idea without political apparatus, without sustaining history, without field-tested ideology. As Sutherland argues: it is without thinkers—like Frankenstein waiting for the lightning bolt. In this irreverent, entertaining, and utterly tongue-in-cheek new guide, Sutherland suggests some stuffing for the ideological vacuity at the heart of the Brexit cause. He looks for meaning in the works of William Shakespeare, Jane Austen, and Thomas Hardy; in modern classics like *The Queen and I* and *London Fields*; and in the British national anthem, school songs, and poetry. Exploring what Britain meant, means, and will mean, Sutherland subtly shows how great literary works have a shaping influence on the world. Witty and insightful, and with a preface by Guardian columnist and critic John Crace, this book belongs on the shelves of anyone seeking to understand the bragging Brexiteers (and the many diehard Remoaners, too).

James Fenimore Cooper (1789–1851) invented the key forms of American fiction—the Western, the sea tale, the Revolutionary War romance. Furthermore, Cooper turned novel writing from a polite diversion into a paying career. He influenced Herman Melville, Richard Henry Dana, Jr., Francis Parkman, and even Mark Twain—who felt the need to flagellate Cooper for his “literary offenses.” His novels mark the starting point for any history of our environmental conscience. Far from complicit in the cleansings of Native Americans that characterized the era, Cooper's fictions traced native losses to their economic sources. Perhaps no other American writer stands in greater need of a major reevaluation than Cooper. This is the first treatment of Cooper's life to be based on full access to his family papers. Cooper's life, as Franklin relates it, is the story of how, in literature and countless other endeavors, Americans in his period sought to solidify their political and cultural economic independence from Britain and, as the Revolutionary generation died, stipulate what the maturing republic was to become. The first of two volumes, *James Fenimore Cooper: The Early Years* covers Cooper's life from his boyhood up to 1826, when, at the age of thirty-six, he left with his wife and five children for Europe.

Not Dead Yet Yale University Press

Part memoir, part sports adventure, *Not Dead Yet* tells the inspirational story of Phil Southerland's battle with Type 1 diabetes and how from diagnosis to sheer determination, he beat all odds and turned his diagnosis and his passion for cycling into a platform. From leading a Race Across America to managing a world-class cycling program, Southerland's journey on and off the bike has helped changed the way the world views diabetes. When Phil Southerland was seven-months-old, he lost ten pounds in a week, his body was limp and his breathing slowed to what his mother called a "death rattle." Rushing him to the ER, she was informed that tiny Phil displayed the youngest case of diabetes on record in the world at that time. Blindness, kidney failure and death were all predicted for him by age twenty-five. Decades later, not only is Phil alive and well but as the founder of Team Type 1, he and his team of championship cyclists – many of them diabetics—have become health and fitness role models for people the world over. Together, they took on some of the most challenging endurance events in the world, including winning the Race Across America—a grueling 3,000-mile endurance competition—twice. Today, Phil continues to lead Team Type 1 as CEO. *Not Dead Yet* is Phil's powerful story: his account of his relationship with his mother, and how she struggled to keep him alive; growing up quickly in the New-Old South of the 1990s, learning at the tender age of 6 years old how to check his glucose and give himself injections; of how he fulfilled his dream of becoming a professional athlete using his team and the bike as a platform, inspiring thousands of individuals and families around the world who are battling diabetes to not just chase, but catch, their dreams.
