How do we learn what it means to be a man? And how do we learn to question what it means to be a man? This collection comprises a set of original interdisciplinary chapters on the linguistic and cultural representations of queer masculinities in a range of new and older media: television, film, online forums, news reporting, advertising and fiction. This innovative work examines new and emerging forms of gender hybridisation in relation to complex socialisation and immigration contexts including the role of EU institutions in ascertaining asylum seekers' sexual orientation, and the European laws on gender policy. The book employs numerous analytical approaches including critical discourse analysis, corpus linguistics, multimodal analysis, literary criticism and anthropological and social research. The authors show how such texts can disrupt, question or complicate traditional notions of what it means to be a man, queering the idea that men possess fixed identities or desires, instead arguing that masculinity is constantly changing and negotiated through the cultural and political overlapping contexts in which it is regularly produced. These nuanced analyses will bring fresh insights for students and scholars of gender, masculinity and queer studies, linguistics, anthropology and semiotics.

In the last decade, public discussions of transgender issues have increased exponentially. However, with this increased visibility has come not just power, but regulation, both in favor of and against trans people. What was once regarded as an unusual or even unfortunate disorder has become an accepted articulation of gendered embodiment as well as a new site for political activism and political recognition. What happened in the last few decades to prompt such an extensive rethinking of our understanding of gendered embodiment? How did a

stigmatized identity become so central to U.S. and European articulations of self? And how have people responded to the new definitions and understanding of sex and the gendered body? In *Trans**, Jack Halberstam explores these recent shifts in the meaning of the gendered body and representation, and explores the possibilities of a nongendered, gender-optional, or gender-queer future.

Introduces key terms, debates, and histories for feminist studies in gender and sexuality *Keywords for Gender and Sexuality Studies* introduces readers to a set of terms that will aid them in understanding the central methodological and political stakes currently energizing feminist and queer studies. The volume deepens the analyses of this field by highlighting justice-oriented intersectional movements and foregrounding Black, Indigenous, and women of color feminisms; transnational feminisms; queer of color critique; trans, disability, and fat studies; feminist science studies; and critiques of the state, law, and prisons that emerge from queer and women of color justice movements. Many of the keywords featured in this publication call attention to the fundamental assumptions of humanism's political and intellectual debates—from the racialized contours of property and ownership to eugenicist discourses of improvement and development. Interventions to these frameworks arise out of queer, feminist and anti-racist engagements with matter and ecology as well as efforts to imagine forms of relationality beyond settler colonial and imperialist epistemologies. Reflecting the interdisciplinary breadth of the field, this collection of seventy essays by scholars across the social sciences and the humanities weaves together methodologies from science and technology studies, affect theory, and queer historiographies, as well as Black Studies, Latinx Studies, Asian American, and Indigenous Studies. Taken together, these essays move alongside the distinct histories and myriad solidarities of the fields to construct the much awaited *Keywords for Gender and Sexuality Studies*.

Masculinities without Men? Duke University Press

The first full-length study of transgender representations in art, fiction, film, video, and music In her first book since the critically acclaimed *Female Masculinity*, Judith Halberstam examines the significance of the transgender body in a provocative collection of essays on queer time and space. She presents a series of case studies focused on the meanings of masculinity in its dominant and alternative forms' especially female and trans-masculinities as they exist within subcultures, and are appropriated within mainstream culture. In *In a Queer Time and Place* opens with a probing analysis of the life and death of Brandon Teena, a young transgender man who was brutally murdered in small-town Nebraska. After looking at mainstream representations of the transgender body as exhibited in the media frenzy surrounding this highly visible case and the Oscar-winning film based on Brandon's story, *Boys Don't Cry*, Halberstam turns her attention to the cultural and artistic production of queers themselves. She examines the "transgender gaze," as rendered in small art-house films like *By Hook or By Crook*, as well as figurations of ambiguous embodiment in the art of Del LaGrace Volcano, Jenny Saville, Eva Hesse, Shirin Neshat, and others. She then exposes the influence of lesbian drag king cultures upon hetero-male comic films, such as *Austin Powers* and *The Full Monty*, and, finally, points to dyke subcultures as one site for the development of queer counterpublics and queer temporalities. Considering the sudden visibility of the transgender body in the early twenty-first century against the backdrop of changing conceptions of space and time, *In a Queer Time and Place* is the first full-length study of transgender representations in art, fiction, film, video, and music. This pioneering book offers both a jumping off point for future analysis of transgenderism and an important new way to understand cultural constructions of time and place.

A roadmap to sex and gender for the twenty-first century, using Lady Gaga as a symbol for a new kind of feminism Why are so many women single, so many men resisting marriage, and so many gays and lesbians having babies? In *Gaga Feminism: Sex, Gender, and the End of Normal*, J. Jack Halberstam answers these questions while attempting to

make sense of the tectonic cultural shifts that have transformed gender and sexual politics in the last few decades. This colorful landscape is populated by symbols and phenomena as varied as pregnant men, late-life lesbians, *SpongeBob SquarePants*, and queer families. So how do we understand the dissonance between these real lived experiences and the heteronormative narratives that dominate popular media? We can embrace the chaos! With equal parts edge and wit, Halberstam reveals how these symbolic ruptures open a critical space to embrace new ways of conceptualizing sex, love, and marriage. Using Lady Gaga as a symbol for a new era, Halberstam deftly unpacks what the pop superstar symbolizes, to whom and why. The result is a provocative manifesto of creative mayhem, a roadmap to sex and gender for the twenty-first century, that holds Lady Gaga as an exemplar of a new kind of feminism that privileges gender and sexual fluidity. Part handbook, part guidebook, and part sex manual, *Gaga Feminism* is the first book to take seriously the collapse of heterosexuality and find signposts in the wreckage to a new and different way of doing sex and gender.

In Thieving Sugar, Omise'eke Natasha Tinsley explores the poetry and prose of Caribbean women writers, revealing in their imagery a rich tradition of erotic relations between women. She takes the book's title from Dionne Brand's novel *In Another Place, Not Here*, where eroticism between women is likened to the sweet and subversive act of cane cutters stealing sugar. The natural world is repeatedly reclaimed and reinterpreted to express love between women in the poetry and prose that Tinsley analyzes. She not only recuperates stories of Caribbean women loving women, stories that have been ignored or passed over by postcolonial and queer scholarship until now, she also shows how those erotic relations and their literary evocations form a poetics and politics of decolonization. Tinsley's interpretations of twentieth-century literature by Dutch-, English-, and French-speaking women from the Caribbean take into account colonialism, migration, labor history, violence, and revolutionary politics. Throughout *Thieving Sugar*, Tinsley connects her readings to contemporary matters such as neoimperialism and international LGBT and human-rights discourses. She explains too how the texts that she examines intervene in black feminist, queer, and postcolonial studies, particularly when she highlights the cultural limitations of the metaphors that dominate queer theory in North America and Europe, including those of the closet and "coming out." *The Queer Art of Failure* Yale University Press

Since the end of the nineteenth century, the Korean people have faced successive waves of foreign domination, authoritarian regimes, forced dispersal, and divided development. Throughout these turbulent times, "queer" Koreans were ignored, minimized, and erased in narratives of their modern nation, East Asia, and the wider world. This interdisciplinary volume challenges such marginalization through critical analyses of non-normative sexuality and gender variance. Considering both personal and collective forces, contributors extend individualized notions of queer neoliberalism beyond those typically set in Western queer theory. Along the way, they recount a range of illuminating topics, from shamanic rituals during the colonial era and B-grade comedy films under Cold War dictatorship to toxic masculinity in today's South Korean military and transgender confrontations with the resident registration system. More broadly, *Queer Korea* offers readers new ways of understanding the limits and possibilities of

human liberation under exclusionary conditions of modernity in Asia and beyond. Contributors. Pei Jean Chen, John (Song Pae) Cho, Chung-kang Kim, Timothy Gitzen, Todd A. Henry, Merose Hwang, Ruin, Layoung Shin, Shin-ae Ha, John Whittier Treat University of Chicago Press

The Routledge International Handbook of Masculinity Studies provides a contemporary critical and scholarly overview of theorizing and research on masculinities as well as emerging ideas and areas of study that are likely to shape research and understanding of gender and men in the future. The forty-eight chapters of the handbook take an interdisciplinary approach to a range of topics on men and masculinities related to identity, sex, sexuality, culture, aesthetics, technology and pressing social issues. The handbook's transnational lens acknowledges both the localities and global character of masculinity. A clear message in the book is the need for intersectional theorizing in dialogue with feminist, queer and sexuality studies in making sense of men and masculinities. Written in a clear and direct style, the handbook will appeal to students, teachers and researchers in the social sciences and humanities, as well as professionals, practitioners and activists.

A GRIPPING, FEARLESS EXPLORATION OF MASCULINITY The effects of traditionally defined masculinity have become one of the most prevalent social issues of our time. In this engaging and provocative new book, beloved actor, director, and social activist Justin Baldoni reflects on his own struggles with masculinity. With insight and honesty, he explores a range of difficult, sometimes uncomfortable topics including strength and vulnerability, relationships and marriage, body image, sex and sexuality, racial justice, gender equality, and fatherhood. Writing from experience, Justin invites us to move beyond the scripts we've learned since childhood and the roles we are expected to play. He challenges men to be brave enough to be vulnerable, to be strong enough to be sensitive, to be confident enough to listen. Encouraging men to dig deep within themselves, Justin helps us reimagine what it means to be man enough and in the process what it means to be human.

What does sexual orientation mean if the very categories of gender are in question? How do we measure equality when our society's definitions of "male" and "female" leave out much of the population?

There is no consensus on what a "real" man or woman is, where one's sex begins and ends, or what purpose the categories of masculine and feminine traits serve.

While significant strides have been made in recent years on behalf of women's, gay and lesbian rights, there is still a large division between the law and day-to-day reality for LGBTQIA and female-identified individuals in American society. The practices, media outlets and institutions that privilege heterosexuality and traditional gender roles as "natural" need a closer examination.

Gender & Sexuality For Beginners considers the uses and limitations of biology in defining gender. Questioning gender and sex as both categories and forms of compulsory identification, it critically examines the issues in the historical and contemporary construction, meaning and perpetuation of gender roles. Gender & Sexuality For Beginners interweaves neurobiology, psychology, feminist, queer and trans theory, as well as historical gay and lesbian activism to offer new perspectives on gender inequality, ultimately pointing to the clear inadequacy of gender categories and the ways in which the sex-gender system oppresses us all.
