Hi, seeing as Fender  
stopped making these  
basses I thought it  
would be cool to set up  
a page for them on  
facebook with the  
following aim: Post  
love, information,  
pictures and stories  
about these most

excellent instruments.  
One of the best bass  
designs to come from  
Fender for years!  
Please keep posts nice,  
fun and focussed on  
these great basses.  
Standard Dimension Bass

The Fender Precision  
Bass was the first mass  
produced and widely  
adopted electric bass  
guitar. With it thick low  
end and pin point  
precision these are still  
incredibly popular, even  
to this day. Did you know  
that the Precision Bass

was so popular when it  
came out in 1951 that  
they weren ' t called  
' electric bass guitars '  
they were frequently  
called ' fender basses ' ?
