The Fender Frontman 15r was released as a small  
practice amp in February 1997. It is a simple and  
portable guitar amp that is inexpensive, making it  
a great option for all levels. With its black covering,  
silver grille cloth, and skirted knobs, this model has  
the trademark Fender Blackface appearance.  
Unfortunately, this model is no longer sold  
commercially.
