Mamie Smith's pathbreaking 1920 recording of "Crazy Blues" set the pop music world on fire, inaugurating a new African American market for "race records." Not long after, such records also brought black blues performance to an expanding international audience. A century later, the mainstream blues world has transformed into a multicultural and transnational melting pot, taking the music far beyond the black southern world of its origins. But not everybody is happy about that. If there's "No black. No white. Just the blues," as one familiar meme suggests, why do some blues people hear such pronouncements as an aggressive attempt at cultural appropriation and an erasure of traumatic histories that lie deep in the heart of the music? Then again, if "blues is black music," as some performers and critics insist, what should we make of the vibrant global blues scene, with its all-comers mix of nationalities and ethnicities? In *Whose Blues?*, award-winning blues scholar and performer Adam Gussow confronts these challenging questions head-on. Using blues literature and history as a cultural anchor, Gussow defines, interprets, and makes sense of the blues for the new millennium. Drawing on the blues tradition's major writers including W. C. Handy, Langston Hughes, Zora Neale Hurston, and Amiri Baraka, and grounded in his first-person knowledge of the blues performance scene, Gussow's thought-provoking book kickstarts a long overdue conversation.

Essays by male and female stars of the hot rod world round out this delightful book.

Revised 2013 About the Book Achieving "hit writer" status has always been a formidable goal for any songwriter. Never more so however than in the 21st century. Catching the ear of the monumentally distracted, fragmented listener has never been more difficult. Getting their attention, inviting them in to your song and keeping them there for long enough for your song to become "their song" requires more than being just a "good" songwriter. Murphy's Laws of Songwriting "The Book" arms the songwriter for success by demystifying the process and opening the door to serious professional songwriting. Hall of fame songwriter Paul Williams said in his review of the book "If there was a hit songwriters secret handshake Da Murphy would probably have included it." About the Author Ralph Murphy, songwriter, has been successful for five decades. Consistently charting songs in an ever-changing musical environment makes him a member of that very small group of professionals who make a living doing what they love to do. Add to that the platinum records as a producer, the widely acclaimed Murphy's Laws of Songwriting articles used as part of curriculum at colleges, universities, and by songwriter organizations, his success as the publisher and co-owner of the extremely successful Picalic Group of Companies and you see a pattern of achievement based on more than luck.
