The ultimate go-to book for information about vintage Gretsch guitars of the 1950s, illustrated with over 120 exquisite images, this is an authoritative, extremely detailed review of both Gretsch guitar production and the individual guitar models that the company introduced during the decade. It will give the reader a comprehensive explanation of the various Gretsch serial numbering systems, an overview of classic Gretsch features from the 1950s, and complete specifications for 28 models produced within the decade. Also included are the evolution of features for each model in every model year of the 1950s, the total production estimates for most models, and the adjusted serial number to model year chronology. This highly detailed information is supported by compelling photography, and an extensive, batch-by-batch recreation of the Gretsch Brooklyn factory's lost production history. A user-friendly technical guide, this book offers a wealth of new data and is a must-have resource for vintage instrument dealers, guitar collectors, Gretsch enthusiasts, and fans of vintage guitars.

Machine Models of Music brings together representative models and current research to illustrate the rich impact that artificial intelligence has had on the understanding and composition of traditional music and to demonstrate the ways in which music can push the boundaries of traditional AI research. Machine Models of Music brings together representative models ranging from Mozart's "Musical Dice Game" to a classic article by Marvin Minsky and current research to illustrate the rich impact that artificial intelligence has had on the understanding and composition of traditional music and to demonstrate the ways in which music can push the boundaries of traditional AI research. Major sections of the book take up pioneering research in generate-and-test composition (Lejaren Hiller, Barry Brooks, Jr., Stanley Gill); composition parsing (Allen Forte, Herbert Simon, Terry Winograd); heuristic composition (John Rothgeb, James Moorer, Steven Smoliar); generative grammars (Otto Laske, Gary Rader, Johan Sundberg, Fred Lerdahl); alternative theories (Marvin Minsky, James Meehan); composition tools (Charles Ames, Kemal Ebcioglu, David Cope, C. Fry); and new directions (David Levitt, Christopher Longuet-Higgins, Jamshed Bharucha, Stephan Schwanauer). Stephan Schwanauer is President of Mediasoft Corporation. David Levitt is the founder of HIP Software and head of audio products at VPL Research.

The modern drum-kit has come a long way in the 110 years that have elapsed since it evolved in 1901 in the bars and brothels of New Orleans – but the principles remain the same. The biggest improvement has been the introduction of better engineering and sturdier hardware – all of which needs constant maintenance. Drum Kit Manual is the latest addition to the expanding list of Haynes Manuals about musical instruments, and it covers the subject in exhaustive detail with step-by-step instructions and clear colour photographs.
