Machine Models of Music brings together representative models and current research to illustrate the rich impact that artificial intelligence has had on the understanding and composition of traditional music and to demonstrate the ways in which music can push the boundaries of traditional AI research. Machine Models of Music brings together representative models ranging from Mozart's "Musical Dice Game" to a classic article by Marvin Minsky and current research to illustrate the rich impact that artificial intelligence has had on the understanding and composition of traditional music and to demonstrate the ways in which music can push the boundaries of traditional AI research. Major sections of the book take up pioneering research in generate-and-test composition (Lejaren Hiller, Barry Brooks, Jr., Stanley Gill); composition parsing (Allen Forte, Herbert Simon, Terry Winograd); heuristic composition (John Rothgeb, James Moorer, Steven Smoliar); generative grammars (Otto Laske, Gary Rader, Johan Sundberg, Fred Ler Dahl); alternative theories (Marvin Minsky, James Meehan); composition tools (Charles Ames, Kemal Ebcioglu, David Cope, C. Fry); and new directions (David Levitt, Christopher Longuet-Higgins, Jamshed Bharucha, Stephan Schwanauer). Stephan Schwanauer is President of Mediasoft Corporation. David Levitt is the founder of HIP Software and head of audio products at VPL Research.

The modern drum-kit has come a long way in the 110 years that have elapsed since it evolved in 1901 in the bars and brothels of New Orleans – but the principles remain the same. The biggest improvement has been the introduction of

better engineering and sturdier hardware all of which needs constant maintenance. Drum Kit Manual is the latest addition to the expanding list of Haynes Manuals about musical instruments, and it covers the subject in exhaustive detail with step-by-step instructions and clear colour photographs.

The Fender Reference Voyageur Press

The ultimate go-to book for information about vintage Gretsch guitars of the 1950s, illustrated with over 120 exquisite images, this is an authoritative, extremely detailed review of both Gretsch guitar production and the individual guitar models that the company introduced during the decade. It will give the reader a comprehensive explanation of the various Gretsch serial numbering systems, an overview of classic Gretsch features from the 1950s, and complete specifications for 28 models produced within the decade. Also included are the evolution of features for each model in every model year of the 1950s, the total production estimates for most models, and the adjusted serial number to model year chronology. This highly detailed information is supported by compelling photography, and an extensive, batch-by-batch recreation of the Gretsch Brooklyn factory's lost production history. A user-friendly technical guide, this book offers a wealth of new data and is a must-have resource for vintage instrument dealers, guitar collectors, Gretsch enthusiasts, and fans of vintage guitars.

Complete Guitar Repair MIT Press
Introduced in 1961, the Gibson SG is Gibson’s biggest-selling guitar of all time, and is synonymous with Angus Young (AC/DC lead guitarist), Tony Iommi (Black Sabbath) and Robby Krieger (The Doors). The SG was originally produced as a more easily manufactured ‘mass-production’ version of the Les Paul, sales of which were diminishing at the time, but the solid-bodied SG (‘Solid Guitar’) soon became a revered instrument in its own right. Superbly illustrated and designed, this manual includes case studies of key models – everything from a vintage SG ‘Les Paul’ to a 2011 SG 50th Anniversary model – but also gives appropriate attention to today’s affordable Epiphone versions, Specials, Juniors and Melody Makers.

Build Your Own Electric Guitar Hal Leonard Corporation
Many books have been written about how to build cigar box guitars and other unique hand-made instruments... but few have touched on why. This book presents the authentic stories of American DIY music with step-by-step projects, photo studies of antique instruments, interviews with music legends, and historical accounts. Shane Speal, the “King of the Cigar Box Guitar,” brings the making of music and musical instruments back

to its roots. From a simple two-string tin can guitar to an electrified washtub bass, Shane shows how anyone can build amazing musical instruments from found items. Sidebars present the fascinating backstory of the music, capturing struggle, poverty and the blues within the artistic side of cigar box guitar building. Featuring an introduction from the New Orleans Museum of Jazz, this DIY musical instrument book is as inspirational to read in the living room as it is in the workshop.
