Tried it out w/ cigar box guitars and it worked quite well. A lot of the hissy instruments I have sound good through this amp as well. I also own the fender 212r, which to me is almost identical to the ultimate chorus in terms of construction. So, I have 2 2x12 amps now, making it so I have a loud backup guitar amp no matter what.

Continuing on "amp week," here is an amp that was actually a pretty decent amp despite the fact that it was solid state.

These were made from '92-'94 from what I can tell and were replaced by the Fender Ultimate Chorus. It has built in chorus and channel switching with a distortion sound that's okay.

Chorus hey all! Got a question about an Ultimate Chorus Amp that was given to me by a friend. When I turn it on it gives a loud pop/low-end squeak and then hums like it's not grounded. When I turn on the

chorus it adds its effect to the hum. Then when I turn it off, it pops again. Can anyone tell me what might be wrong, and what it would take to fix it.

Buy it. I've had an Ultra Chorus since 92 - twin 12, 65 watts, stereo chorus - it is a very good clean Fender amp. It also handles effects well, on occasion I put a BK Butler Tube Works pre-amp in front of it and the combination of the Ultra Chorus and the tube pre-

---

amp gives me many different sounds from clean to brown to dirty, even at at low volumes.

CHORUS OWNER ' S

MANUAL. PRINCETON CHORUS OWNER ' S MANUAL The Fender PRINCETON CHORUS amplifier presents the player with the best value of any amplifier in its price class. The PRINCETON CHORUS is much more than a portable Gain Switching Amplifier. Besides its basic complement of VOLUME,

The Fender Ulimate Chorus is a bit of a departure from the traditional ideas that many guitar players have of Fender amps. This is definitely solid-state, since it's got a few effects, Chorus and Reverb, built in.

MANUAL Pdf Download.

Hey guys, I have a fender  
ultimate chorus that suddenly  
developed a VERY bad hum on  
the overdrive channel, as in no  
sound except the hum, and in the  
clean there is almost a constant  
pop/crackle. In my research on  
the web I have seen that this is

most likely a bad solder joint?
