democracies in its origin • Examines home front developments in major countries during the war, such as race and gender relations in the United States • Recognizes the important roles played by women in the war and describes how the United States mobilized its economy and citizenry for total war • Discusses the Holocaust and establishes responsibility

for this genocide • Details the changing attitudes toward the war as expressed in film and literature **Industrial policy** Bibliography of Scientific and Industrial Report sMotorBoatingE ncylopaedia of Classic Cars Chiefly translations from foreign aeronautical journals. Reorganization of the Army Taylor & Francis Volume XII of the High Speed Aerodynamics and

Jet Propulsion series. Partial Contents: Historical development of jet propulsion; basic principles of jet propulsion; analyses of the various types of jet propulsion engines including the turbojet, the turboprop, the ramjet, and intermittent jets, as well as solid and liquid propellant rocket engines and the ramrocket. Another section deals with jet driven rotors. The final sections discuss the use of atomic energy in jet propulsion and the future prospects of

jet propulsion. Originally published in 1959. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich

scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The static longitudinal stability of an airplane with locked elevator is usually determined by analysis and model tests. The present report proposes to supply the results of such measurements. The method consisted of recording the dynamic pressure versus elevator displacement at different center-of-gravity positions in unaccelerated flight.
