Carlo Abarth was a performance tuning maestro. He created and modified the small displacement Italian cars of the times, adding his own tuned exhausts, cylinder heads and other components. The results were championship-winning racers and street cars. The Abarth Buyer's Guide tells the story of all the Abarth cars, including the earliest Cisitalia, Fiats, Simcas, the Zagato and Bialbero cars, Porsche Abarth Carrera, Lancias, formula cars, record-setters and the sports racers. The book is built on an impressive archive of historical photographs, many of them rare original Abarth factory pictures. The detailed text chronicles the development history of Abarth, including specifications, restoration and authenticity notes, and the Buyer's Guide star investment ratings. Author Peter Vack is an Abarth enthusiast of long standing, and he writes of the cars with passion and experience. Over a period of 13 years, the Abarth Buyer's Guide has proven to be a very dependable and useful book for those interested in Abarth cars. Now in its third printing, it remains one of the best and most comprehensive Abarth books ever written. Of that we are proud. We hope that it will continue to encourage others to do further research and create enthusiasm for the restoration of all Abarths.

What is innovation? The dictionary defines it as "renewal through the use of new processes and technologies." In advertising, everything is an innovation. But what is truly innovative? Since 1930, the Pininfarina design firm of Turin, Italy, has been answering that question. This is where the Cistalia 202 was developed, the first vehicle to be added to MoMA's permanent collection. The list goes on: the interior of the new stadium for Juventus Turin, the Nash Healey Spider seen in Billy Wilder's Sabrina, and the legendary Ferrari Dino 246 and Ferrari Testarossa. However, Pininfarina is not resting on its laurels, but blasting full speed ahead into the future with an expanded portfolio while honoring its heritage. Whether it's a solution for sustainable mobility, interior designs, or household gadgets, all Pininfarina projects bear an unmistakable signature. To visually celebrate the history and influence of Pininfarina, there is no one better suited than a man who has made his own unmistakable mark on automotive photography. Gunther Raupp has spent 30 years photographing cars for Ferrari's official calendars, which enjoy a cult following among the experts. He has two successful books with teNeues, the most recent being The Ferrari Book. As a star photographer and connoisseur of industrial design, Raupp showcases a company that embodies true italianita. **National Automotive Sampling System, Crashworthiness Data System** Veloce Enterprises Incorporated New York Times bestselling author Faye Kellerman's beloved Decker and Lazarus embark on a new life in

upstate New York—and find themselves entangled in deception, intrigue, and murder in an elite, picturesque college town. As a detective lieutenant with the LAPD, Peter Decker witnessed enough ugliness and chaos for a lifetime. Now he and his spirited wife, Rina Lazarus, are ready to enjoy the quiet beauty of upstate New York, where they can be closer to their four adult children, grandchildren, and their foster son, Gabe. But working for the Greenbury Police Department isn't as fulfilling as Decker hoped. While Rina has adapted beautifully to their new surroundings, Decker is underwhelmed and frustrated by his new partner, Tyler McAdams, a former Harvard student and young buck with a bad attitude. Just when he thinks he's made a mistake, Decker is called to an actual crime—a possible break-in at the local cemetery. The call seems like a false alarm until it's discovered that a mausoleum's stunning Tiffany panels have been replaced by forgeries. Soon the case escalates into murder: a co-ed at an exclusive consortium of liberal-arts colleges is brutally slaughtered. Poking into the hallowed halls of academia to find a killer, Decker and McAdams are drawn deep into a web of nasty secrets, cold-case crimes, international intrigue, and ruthless people who kill for sport. Suddenly Decker's job is anything but boring, and the case might be too much to handle for a sleepy town that hasn't seen a murder for nearly a quarter century. Decker will need to use every bit of his keen mind, his thirty years of experience as a homicide cop, and much-appreciated help from family and old friends to stop a callous killer and uncover a cabal so bizarre that it defies logic.
