**Modernism, Globalism and the Information Age** McGraw-Hill Education

This text is part of a six-volume work which offers an overview of art, music, literature, history and philosophy. Book 3 explores the European Renaissance, the reformation and the global encounter. It looks at the 14th-century transitions, classical humanism, Renaissance artists, reforms and cross-cultural encounters in Africa and the Americas. The text focuses on the Western tradition, but also includes strong coverage of other cultures, setting the arts of the West in the larger arena of world cultures including India, the East, Africa and Native America.

Throughout the chronological narrative there is a focus on universal themes, integrating ideas and issues that relate to the human condition. The coverage of literature, art, music and architecture is integrated into discussions of cultural and political influences, aiming to create a logical presentation of broad subject matter.

Designed for Introduction to Humanities courses, "the Humanistic Tradition is quite simply the finest book of its type. Fiero manages to integrate the political, cultural, and social history of the world into one coherent and fascinating whole. It is a masterpiece of scholarship . . . balanced, interesting, easy to read, and consummately beautiful. Our professors praise its accuracy and scope and our students unanimously say it is their favorite textbook."— Sonia Sorrell, Pepperdine University

Leadership is a daunting subject for most developing leaders, but eventually all followers will be called upon to lead. Where do we start? What model or theory do we utilize? The choices become overwhelming for anyone attempting online searches. Everywhere you look are leadership books, programs, degrees, workshops, seminars, boot camps, and even mobile apps! Many organizations at Air University are utilizing the full range of leadership approach. Initially introduced by James MacGregor Burns in 1978 and Bernard Bass in 1985, these transformational and transactional leadership styles have sustained nearly four decades. European dimensions and shared features. A group of specialists in the field has started to explore the possibilities and challenges of research on a wide, European scale. This volume contains the first overview and analysis of the different approaches, methodologies and sources that will stimulate and facilitate future comparative research. This volume first addresses the benefits of a media-driven approach, focussing on processes of content recycling, interactions between text and image, processes of production and consumption. A second perspective illuminates the distribution and markets for popular print, discussing audiences, prices and collections. A third dimension refers to the transnational dimensions of genres, stories, and narratives. A last perspective unravels the communicative strategies and dynamics behind European bestsellers. This book is a source of inspiration for everyone who is interested in research into transnational cultural exchange and in the fascinating history of

popular print culture in Europe.

**The New World, Islam, and European Identities** Cambridge University Press

When it was first released in 1962, The Shape of Time presented a radically new approach to the study of art history. Drawing upon new insights in fields such as anthropology and linguistics, George Kubler replaced the notion of style as the basis for histories of art with the concept of historical sequence and continuous change across time. Kubler’s classic work is now made available in a freshly designed edition. “The Shape of Time is as relevant now as it was in 1962. This book, a sober, deeply introspective, and quietly thrilling meditation on the flow of time and space and the place of objects within a larger continuum, adumbrates so many of the critical and theoretical concerns of the late twentieth and early twenty-first century. It is both appropriate and necessary that it re-appear in our consciousness at this time.”—Edward J. Sullivan, New York University This book will be of interest to all students of art history and to those concerned with the nature and theory of history in general. In a study of formal and symbolic

---

durations the author presents a radically new approach to the problem of historical change. Using new ideas in anthropology and linguistics, he pursues such questions as the nature of time, the nature of change, and the meaning of invention. The result is a view of historical sequence aligned on continuous change more than upon the static notion of style—the usual basis for conventional histories of art. A carefully reasoned and brilliantly suggestive essay in defense of the view that the history of art can be the study of formal relationships, as against the view that it should concentrate on ideas of symbols or biography.—Harper's. It is a most important achievement, and I am sure that it will be studied for many years in many fields. I hope the book upsets people and makes them reformulate.—James Ackerman. In this brief and important essay, George Kubler questions the soundness of the stylistic basis of art historical studies. . . . The Shape of Time ably states a significant position on one of the most complex questions of modern art historical

scholarship.—Virginia Quarterly Review.

Much blood has been spilled and is still being spilled over the question, Is there such a thing as a true religion? To answer No, is to give up on religion. To answer Yes seems dangerous and naive. Yet there is a way of understanding religion that avoids the danger and is both emotionally and intellectually satisfying.
