Three essays put forth recommendations for improving various aspects of American education. The first essay, "Teacher Preparation," focuses on the impact of several social, global, and technological trends on American schools and teacher education. In light of these trends, it is concluded that teachers must understand the ways in which America is changing and be prepared to help the growing numbers of disadvantaged children. They must also have a global perspective and see that the world is a global village that is politically transformed, economically connected, and ecologically imperiled. Teachers must help students cooperate rather than compete and find ways to use technology to help the learning process. Finally, in light of the stressful home lives of many children, they must understand how deeply these children are in need, and be caring as well as competent. The second essay, "Early Childhood Education," proposes six national objectives for early education: (1) good nutrition for every child; (2) universal preschool education for every disadvantaged child; (3) the establishment of nongraded Basic Schools that combine grades K-4; (4) classes of no more than 15 students; (5) evaluation to ensure that students have basic language and computation skills before leaving 4th grade; and (6) intergenerational connections. The final essay, "A National Education Index," recommends the creation of a set of nationwide standards that would serve as a framework for state accountability. The proposed index would include standards for student achievement, the conditions of teaching, school climate, school finance, accountability and intervention, and school partnerships with parents and the business community. Gay Wachman provides a critical new reading of sexually radical fiction by British women in the years during and after the First World War. She contrasts works by Sylvia Townsend Warner, Virginia Woolf, Rose Allatini, and Evadne Price with more politically and narratively conservative novels by Radclyffe Hall and Clemence Dane. These writers, she states, formed part of an alternative modernist tradition that functioned both within and against the repressive ideology of the British Empire, using fantasy as a means of reshaping and critiquing a world fragmented by war. Wachman places at the center of this tradition Sylvia Townsend Warner's achievement in undermining the inhibitions that faced women writing about forbidden love. She discusses Warner's use of crosswriting to transpose the otherwise unrepresentable lives of invisible lesbians into narratives about gay men, destabilizing the borders of race, class, and gender and challenging the codes of expression on which imperialist patriarchy and capitalism depended.

In which a witch bewitched the hatter's daughter -- and then some. . . . Sophie lived in the town of Market Chipping, which was in Ingary, a land in which anything could happen, and often did -- especially when the Witch of the Waste got her dander up. Which was often. As her younger sisters set out to seek their fortunes, Sophie stayed in her father's hat shop. Which proved most unadventurous, until the Witch of the Waste came in to buy a bonnet, but was not pleased. Which is why she turned Sophie into an old lady. Which was spiteful witchery. Now Sophie must seek her own fortune. Which means striking a bargain with the lecherous Wizard Howl. Which means entering his ever-moving castle, taming a blue fire-demon, and meeting the Witch of the Waste head-on. Which was more than Sophie bargained for. . . .
