"A New Theatre should attract an audience far greater than just the theater world; in fact, it should be of interest to everyone in search of a book that is readable, keenly observant, and witty." –New York Times "Guthrie's writing as usual is fresh, witty, sometimes caustic, and always invigorating." –Library Journal After a long and storied career as one of Britain's great stage directors, Sir Tyrone Guthrie had become disillusioned with the artistic standards and financial compromises found in the commercial theater of Broadway and London's West End. He discovered that outside of New York most of America did not have access to professional theater. To remedy this problem Guthrie and his colleagues proposed starting a nonprofit, repertory theater company in a city far removed from Broadway. Scouting and pitching his idea to several major U.S. cities, Guthrie finally found a home for his theater in

Minneapolis. A New Theatre chronicles how a coalition of local Minneapolis businesses and philanthropic leaders worked with Guthrie to create the Guthrie Theatre in the early 1960s. In his amusing and personable style, Guthrie welcomes readers on a tour of one of the most dynamic young theatrical institutions in the world, exploring its years of planning, Ralph Rapson's design of the original building and the thrust stage, the first productions and their receptions, as well as discussing his larger views of theater's future and its role in society. Sir Tyrone Guthrie (1900–1971) was managing director of the Old Vic and Sadler's Wells and helped found the Stratford Festival of Canada and the Guthrie Theater in Minnesota. Joe Dowling is Artistic Director for the Guthrie Theater. *Soccermatics* Routledge

With rare and unrivaled access, bestselling coauthor of Socceronomics and longtime Financial Times journalist Simon Kuper tells the story of how FC Barcelona became the most successful club in the world—and how that era is now ending FC Barcelona is not just the world's highest grossing sports club, it is simply one of the most influential organizations on the planet. At last count, it had approximately 214 million social media followers, more than any other sports club except Real Madrid CF—and by one earlier measure, more than all thirty-two NFL teams combined. It has more in common with multinational megacompanies like Netflix or small nation-states than it does with most soccer teams. No wonder its motto is "More than a club." But it was not always so. In the past three decades, Barcelona went from a regional team to a global powerhouse, becoming a model of sustained excellence and beautiful soccer, and a consistent winner of championships. Simon Kuper unravels exactly how this transformation took place, paying special attention to the club's two biggest stars, Johan Cruyff and Lionel Messi, who is arguably the greatest soccer player of all time. Messi joined Barça at age thirteen and, more than anyone, has been the engine and standard-bearer of Barcelona's glory. But his era is coming to an end—and with it, a once-in-a-lifetime golden run. This book charts Barça's rise and fall. Like many world-beating organizations, FC Barcelona closely guards its secrets, granting few outsiders access to the Camp Nou, its legendary home stadium. But after decades of writing about the sport and the club, Kuper was given access to the inner sanctum and the people behind the scenes who strive daily to keep Barcelona at the top. Erudite, personal, and capturing all the latest upheavals, his portrait of this incredible institution goes beyond soccer to understand FC Barcelona as a unique social, cultural, and political phenomenon.
