The tales in Bedtime Stories for Dogs are written just the way dogs like things—they're short and simple, they have happy endings, they usually involve food, and they frequently refer to things that smell really awful. Each one of these stories was proofed (and woofed) by the author's two wiener dogs: "If they didn't give a story two paws up and two tails wagging, it was back to the drawing board," she says. This is the perfect treat for anyone: *Whose dog has control of the remote (and flips when watching dog food commercials) *Whose dog occasionally allows him to sleep in the bed (but only if he doesn't hog the covers!) *Who doesn't even notice the dog hairs in their food *Who carries their dog when he gets winded Anyone who has a canine companion will want this charming book. It's a bow-wow bedtime bible!

How could liberalism and apartheid coexist for decades in our country, as they did during the first half of the twentieth century? This study looks at works by such writers as Thomas Dixon, Erskine Caldwell, Zora Neale Hurston, William Faulkner, and Ralph Ellison to show how representations of time in southern narrative first accommodated but finally elucidated the relationship between these two political philosophies. Although racial segregation was codified by U.S. law, says Leigh Anne Duck, nationalist discourse downplayed its significance everywhere but in the South, where apartheid was conceded as an immutable aspect of an anachronistic culture. As the nation modernized, the South served as a repository of the country's romantic notions: the region was represented as a close-knit, custom-bound place through which the nation could temper its ambivalence about the upheavals of progress. The Great Depression changed this. Amid economic anxiety and the international rise of fascism, writes Duck, "the trope of the backward South began to comprise an image of what the United States could become." As she moves from the Depression to the nascent years of the civil rights movement to the early cold war era, Duck explains how experimental writers in each of these periods challenged ideas of a monolithically archaic South through innovative representations of time. She situates their narratives amid broad concern regarding national modernization and governance, as manifest in cultural and political debates, sociological studies, and popular film. Although southern modernists' modes and methods varied along this trajectory, their purpose remained focused: to explore the mutually constitutive relationships between social forms considered "southern" and "national."

A powerful and haunting debut novel about friendship, acceptance, and learning to let go as the balance between the living and the dead is upended, perfect for fans of *We Were Liars*. It's been more than 50 years since a tornado tore through a drive-in movie theater in tiny Mercer, Illinois, leaving dozens of teens -- a whole generation of Mercerites -- dead in its wake. So when another tornado touches down in the exact same spot on the anniversary of this small-town tragedy, the town is shaken. For Brenna Ortiz, Joshua Calloway, and Callie Keller, the apprehension is more than just a feeling. For the first time, the remarkable couple depicted in *The Blind Side* tells their own deeply inspiring story. First came the bestselling book, then the Oscar-nominated movie—the story of Michael Oher and the family who adopted him has become one of the most talked-about true stories of our time. But until now, Leigh Anne and Sean Tuohy have never told this astonishing tale in their own way and with their own words. For Leigh Anne and Sean, it all begins with family. Leigh Anne, the daughter of a tough-as-nails U.S. Marshal, decided early on that her mission was to raise children who would become "cheerful givers." Sean, who grew up poor, believed that one day he could provide a home that would be "a place of miracles." Together, they raised two remarkable children—Collins and Sean Jr.—who shared their deep Christian faith and their commitment to making a difference. And then one day Leigh Anne met a homeless African-American boy named Michael and decided that her family could be his. She and her husband taught Michael what this book teaches all of us: Everyone has a blind side, but a loving heart always sees a path toward true charity. Michael Oher's improbable transformation could never have happened if Leigh Anne and Sean Tuohy had not opened their hearts to him. In this compelling, funny, and profoundly inspiring book, *In a Heartbeat*, the Tuohys take us on an extraordinary journey of faith and love—and teach us unforgettable lessons about the power of giving.
