This casebook provides a set of cases that reveal the current complexity of medical decision-making, ethical reasoning, and communication at the end of life for hospitalized patients and those who care for and about them. End-of-life issues are a

controversial part of medical practice and of everyday life. Working through these cases illuminates both the practical and philosophical challenges presented by the moral problems that surface in contemporary end-of-life care. Each case involved real people, with varying goals and constraints, who tried to make the best decisions possible under demanding conditions. Though there were no

easy solutions, nor ones that satisfied all stakeholders, there are important lessons to be learned about the ways end-of-life care can continue to improve. This advanced casebook is a must-read for medical and nursing students, students in the allied health professions, health communication scholars, bioethicists, those studying hospital and public administration, as well

as for practicing physicians and educators. Getting Dirty Prentice Hall "Sometimes never is a distorted perception. I love you, Hope. And I'm not the only one. I know you care about me. I see it in your eyes. I feel it. Everybody needs love. Everybody. And some people need it more than others. You're a liar if you say you don't. I'll do that for you. I'll love you. All you have to do is let me." – Sometimes Never What happened in the years

Serious Leisure Cheryl McIntyre National and global efforts have failed to stop climate change,

transition from fossil fuels, and reduce inequality. We must now confront these and other increasingly complex problems by building resilience at the community level. The Community Resilience Reader combines a fresh look at the challenges humanity faces in the 21st century, the essential tools of resilience science, and the wisdom of activists, scholars, and analysts working on the ground to present a new vision for creating resilience. It shows that resilience is a process, not a goal; how it requires learning to adapt but also preparing to transform; and that it starts and ends with

the people living in a community. From Post Carbon Institute, the producers of the award-winning The Post Carbon Reader, The Community Resilience Reader is a valuable resource for community leaders, college students, and concerned citizens.

Contextualizing Disaster St. Martin's Griffin
A blizzard the night before Christmas Eve. A handsome stranger on the side of the road in need of a ride. A lonely girl with nowhere to go. It ' s sounds like the beginning of one of those Hallmark movies I used to watch

over the holidays with my mom. Except those movies always have a happy ending, and mine... probably won ' t. My storybook life collapsed five years ago, and now, I ' m just trying to stay one step ahead of my past. It ' s exhausting. And lonely. I ' m sick of running. I ' m sick of hiding. So when my grateful passenger offers me a quaint place to wait out the storm and the chance to experience a real Christmas again, I accept. Because who am I to turn down a gift from fate?

Contextualizing Disaster offers a

comparative analysis of six recent "highly visible" disasters and several slow-burning, "hidden," crises that include typhoons, tsunamis, earthquakes, chemical spills, and the unfolding consequences of rising seas and climate change. The book argues that, while disasters are increasingly represented by the media as unique, exceptional, newsworthy events, it is a mistake to think of disasters as isolated or discrete occurrences. Rather, building on insights developed by political ecologists, this book makes a compelling argument for understanding disasters as transnational and

global phenomena.

NEW YORK TIMES
BESTSELLER • Inspired by a major ESPN film series, this is an extraordinary oral history of basketball—its eye-opening untold history, its profound deeper meaning, its transformative influence on the

world—as told through an unprecedented series of candid conversations with the game’s ultimate icons. This is the greatest love story never told. It has passion and heartbreak, triumph and betrayal. It is deeply intimate yet crosses oceans, upends lives and changes nations. This is the true story of basketball. It is the story of a Canadian invention that took over America, and the world. Of a supposed “white man’s sport” that became a way for people of color, women, and immigrants to claim a new place in society. Of a game that demands everything of those

who love it, yet gives so much back in return. To tell this story, acclaimed journalists Jackie MacMullan, Rafe Bartholomew and Dan Klores embarked on a groundbreaking mission to interview a staggering lineup of basketball trailblazers. For the first time hundreds of legends, from Kobe, LeBron and Steph Curry to Magic Johnson, Dr. J and Jerry West, spoke movingly about their greatest passion. Former NBA commissioner David Stern and iconic coaches like Phil Jackson and Coach K opened up like never before. Those who shattered glass ceilings, from Bill Russell and

Yao Ming to Cheryl Miller and Lisa Leslie, explained what it really took to lay claim to their place in the game. At once a definitive oral history and something far more revelatory and life affirming, *Basketball: A Love Story* is the defining untold oral history of how basketball came to be, and what it means to those who love it.

Serious Leisure offers a comprehensive view and analysis of the current state of the sociology of leisure.

Defining and differentiating the way people use their free time, Stebbins divides such

activity into categories of serious, casual, and project-based leisure that he further separates into a variety of types and subtypes. Together they comprise what he calls serious leisure. In this perspective, serious leisure constitutes systematic pursuit of an amateur, hobbyist, or volunteer activity sufficiently substantial and interesting in nature and requiring special skills, knowledge, and experience. Casual leisure, though immediately, intrinsically rewarding, is by contrast a relatively short-lived

pleasurable activity, requiring little or no special training to enjoy it. Project-based leisure is a short-term, reasonably complicated, occasional creative undertaking carried out in free time. Stebbins sets out the basic concepts and propositions that make up the three forms, focusing on their essential elements. He takes stock of the serious leisure literature as well as that for casual and project-based leisure. Stebbins sees serious leisure realized by way of a set of foundational concepts--organization,

community, history, lifestyle, and culture--and several of their component areas. He reviews the history and background of the concept of serious leisure and then adds historical commentary on, first, casual leisure and, then, project-based leisure. Finally, he examines the future and the importance of the serious leisure perspective in a globalizing world, and some of its critical links with other fields of knowledge and practice, notably the nonprofit sector and preventive medicine. Together with its

original insights, *Serious Leisure* offers a single, handy, coherent, comprehensive resource. It will be of interest to sociologists, labor studies specialists, and economists. The Farthest Edge CSU Open Press
