Ready to turn your Jeep Cherokee XJ into a trail-worthy machine? Why not? With two available 4-wheel-drive systems, solid axles front and rear, and a torquey 4.0-liter straight 6, the Cherokee is a very capable machine, especially when it's modified the right way. This book isn't about cutting apart your Cherokee to build an over-the-top, off-road-only rock crawler (though you can take it there), and it isn't about building a jacked-up, chrome-covered show rig either. This book is about building a useful, capable Cherokee for mountains, the mud, the desert, the street, and everywhere in between. With the modifications explained on these pages, your Cherokee can take you and yours just about everywhere you want to go - and get you back safely. Author Eric Zappe explains how to upgrade your Cherokee's suspension, axles, differentials, engine, transfer case, wheels and tires, skid plates, and more, using aftermarket and salvage yard upgrades. Zappe even has special sections covering basic driving and recovery techniques, and a number of built-up Jeeps to give you ideas for your own Cherokee. Also included is a detailed account of a group of XJs making a run through the famous Rubicon trail.

The Jeep, despite its small engine and public underestimation, represents the most well known example of an American manufacturer ' s success at making the transition from war propaganda to mainstream popular advertising. Made famous by the appearance of a few articles, images of the Jeep could be found everywhere: on stationary, match boxes, playing cards, and appeared to invade America and then the world. The firm Willys further strengthened the phenomenon by inundating the press with large format color advertisements in order to compete with Bantam, the original maker of the engine. While the group was in reality too small to tackle both the demand of this project and the needs of their major client Ford, Willys was nevertheless able to dominate the publicity about the all terrain vehicle by devoting excellent illustrators to the job. Given the firm ' s success, the image of the Jeep was thus highly exploited and used in other campaigns advertising the promotion of other products, personnel recruitment, as well as a variety of other items. Organized by product, Hadacek ' s work gathers together a superb collection of illustrations and material, retracing an entire period focused on a vehicle that initially went unnoticed but quickly became a major symbol of postwar ingenuity.

“ Where are you? ” At the age of 11, Marilyn asked God this simple, yet profound question. God ' s reply was equally as simple, yet profound: “ I am in the Word. ” His response made sense, and Marilyn began to read the Bible. At night, she would kneel on the floor and pray the Scriptures before going to bed. She had no idea that this would lay the foundation for her life and ministry — that these simple practices were shaping her destiny. Several years later, Marilyn heard a teaching on not just reading and doing what the Bible said, but also speaking it. That revelation, along with God ' s mercy and grace, produced astonishing miracles in Marilyn ' s life over the last six decades. She wants these same miracles for you! In Read It. Speak It. Do It. Marilyn gives you the blueprint that she has used for reading the Bible, speaking its promises, and acting on what the Word says. You will gain practical strategies on: Reading, studying, and meditating on the Bible. Taking a passage of Scripture and speaking it over your life. Wielding the Sword of Truth (the Word) during spiritual warfare. Walking out the Word in faith and expecting miracles. Living a miraculous life is not just for international evangelists and preachers; it is also for you! Victory begins when you read it, speak it, and do it! Over the last 30 years, the 'technical' or armed pick-up truck has become arguably the most ubiquitous military land vehicle of modern warfare. Harking back to the armed Jeeps and Chevrolet trucks of the SAS and Long Range Desert Group in North Africa in World War II, the world's first insurgent technicals were those of the Sahrawi People's Liberation Army in Algeria in the late 1970s, followed by the Chadian use of technical in the so-called Toyota War against Libya. Since then, technicals have seen use in Somalia, Iraq, Afghanistan and Libya, as well as being used by Western and Russian Special Forces. Fully illustrated with commissioned artwork and providing rigorous analysis, this is the first history of how this deceptively simple fighting vehicle has been used and developed in conflicts worldwide.

To every member of the 82nd Airborne Division who dropped as part of the American paratroop landings during World War Two, they breathed a little easier knowing their commander "Jumpin' Jim" Gavin would be jumping with them. General Gavin's paratroops drop-landed and fought in Sicily, Normandy on D-Day and during the abortive attempt to capture the Rhine bridges during Operation Market-Garden. He shared the risks of all his men parachuting into enemy territory, often only armed with his GI issue rifle. His memoirs are an outstanding addition to the literature of the Airborne in World War II.
