If you're not a numbers person, then finance can be intimidating and easy to ignore. But if you want to advance in your career, you'll need to make smart financial decisions and develop the confidence to clearly communicate those decisions to others. In *How Finance Works*, Mihir Desai--a professor at Harvard Business School and author of *The Wisdom of Finance*--guides you into the complex but endlessly fascinating world of finance, demystifying it in the process. Through entertaining case studies, interactive exercises, full-color visuals, and a conversational style that belies the topic, Professor Desai tackles a broad range of topics that will give you the knowledge and skills you need to finally understand how finance works. These include: How different financial levers can affect a company's performance The different ways in which companies fund their operations and investments Why finance is more concerned with cash flow than profits How value is created, measured, and maximized The importance of capital markets in helping companies grow Whether you're a student or a manager, an aspiring CFO or an entrepreneur, *How*

Finance Works is the colorful and interactive guide you need to help you start thinking more deeply about the numbers.

Finance equations and surveys are often used to help individuals and families plan for their financial futures. When business students are learning basic principals of finance, they must memorize several equations that are subsequently used in the algorithms behind questionnaires that investment companies

offer to their customers. These equations and answers translate into retirement planning, investment options, and mortgage amortization schedules that are quite useful. Business managers, advertising professionals, and entrepreneurs also benefit from a basic understanding of these essential equations. The formulas are designed to help these professionals know how to effectively run a business for profit while maintaining minimal expenditures.
