Libby/Libby/Hodge wrote this text based on their belief that the subject of financial accounting is inherently interesting, but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is

important to future careers in business.

in the building-block

approach to teaching
transaction analysis. Most

one chapter, bombarding a
student early in the course
with an overload of new
concepts and terms.
