Basic Accounting: Service Business Study Guide is designed as a reference material in introductory accounting that can be used by readers, especially students, taking basic accounting for service business. Presentations and discussions of various accounting concepts and frameworks are simplified to provide the reader with an initial working knowledge on the different steps of the accounting cycle for a service business. Emphasis is given to various accounting concepts, at the same time, the development of the procedural accounting skills. Different basic accounting frameworks and forms are used to assist readers in understanding seemingly complex accounting subject matters. The authors would like to inform the users of this study guide that this was written for readers, especially students, who would want to read a quick guide for the rubrics of basic accounting for service business. Each unit is prefaced with learning objectives to serve as guide to readers. Discussion questions and problem exercises are not included in this reference material. This study guide can be effectively use together with a workbook which is available in the university where one of the authors is currently affiliated. This reference material is not intended to replace existing accounting textbooks written by famous authors whom we have respectfully cited and given credit in this guide. The user of this study guide will walk through the accounting process in a rational, concise and "easy to understand" manner. With the teacher's expert guidance, plus this study guide to learning the basics in accounting, the student will undoubtedly appreciate the fundamentals of accounting. Our desire is to open the eyes of students that studying basic accounting is both easy and rewarding.

**Advanced Financial Accounting** McGraw Hill Professional

Learning Financial Accounting can often feel like learning a foreign language to students, in particular when terminology and procedure is piled on before core concepts are truly mastered. Introductory Financial Accounting for Business is an innovative approach that emphasizes critical thinking over the rote memorization of terms, such as "debits" and "credits". The sequential learning model employed by the authors helps students see the bottom-line consequences of financial statements as it relates to the overall business, better preparing them for careers as accountants, entrepreneurs, and decision-makers. The authors focus initially on conceptual underpinnings -- the reasons why we approach procedures the way we do -- rather than confusing students by front-loading the material with over-complicated details. Author Chris Edmonds has also created a highly popular and widely used series of video lectures, which engage students by clearly and charismatically going over each learning objective in a conversational style. These videos help reinforce important lessons and are always available for review. By developing this stronger foundation, students understand Accounting ideas more broadly and are able to ultimately learn procedural applications more quickly and accurately. With a straightforward writing style and highly engaging video lectures, this dynamic author team leads students down a streamlined learning path focused on critical thinking, clarity of concept, and applicability of material to the real world.

Intermediate Accounting, 3e, by Spiceland/Sepe/Tomassini will gain support in traditional and technology-driven accounting departments, especially those looking for a more concise, decision-making text that reinforces challenging concepts via CD-ROM. The revision of this text is based around a "Learning System." The revision of this "Learning System" was built on improving the clarity of the chapters, emphasizing more decision-making in order to prepare students for the changes taking place on the CPA exam, acknowledging the diversity of students and their learning styles by creating supplemental materials to assure the success of every student, and creating a consistent text and supplemental package for both students and instructor's giving us the best possible intermediate text on the market. Returning to the Third edition is the award winning "Coach" CD-ROM. The Coach CD-ROM is a multimedia product integrating audio and video clips, animated illustrations, cases, and alternative reading material that helps students comprehend some of the more difficult topics associated with intermediate accounting. Designed specifically for the Spiceland text, instructors and students will find these learning tools placed strategically throughout the text. This is the most comprehensive Learning System in Intermediate Accounting. At only 1120 pages (300 pages less than the average intermediate accounting text), Spiceland/S/T has not sacrificed content for pages. Instead, the authors have created a very flexible text with a student friendly writing style that focuses on explaining not just how to apply a procedure, but why it's applied.
