This is the study guide to accompany Financial Accounting in an Economic Context, 9e. By focusing on three elemental themes -- economic factors, measurement issues, and decision-making perspective -- Jamie Pratt's Financial Accounting in an Economic Context, 9th Edition provides a clear understanding of the relevance of principles applied in the real world. Virtually every concept refers to a real company, a real situation, or a real event. Pratt 9e takes an integrative look at accounting and finance by considering the impact of economics, internal controls, international standard, ethics, decision-making, and earnings management. A complete financial picture can be drawn using the tools presented in this text. This text enables MBA and undergraduate students to develop an understanding of the impact that economic events have on business. New elements in the ninth edition sharpen the text ' s economic decision-making foundation and is available with Quantum ' s intelligent adaptive learning and assessment software.

Financial Accounting, Study Guide Cengage Learning

Libby/Libby/Short wrote this text based on their belief that the subject of financial accounting is inherently interesting, but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business. When writing this text, they considered career relevance as their guide when selecting material, and the need to engage the student as their guide to style, pedagogy, and design. Libby/Libby/Short is the only financial accounting text to successfully implement a real-world, single focus company approach in every chapter. Students and instructors have responded very favorably to the use of focus companies and the real-world financial statements. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in

accounting.
