Financial Accounting Cases Wiley

An innovative new valuation framework with truly useful economic indicators *The End of Accounting and the Path Forward for Investors and Managers* shows how the ubiquitous financial reports have become useless in capital market decisions and lays out an actionable alternative. Based on a comprehensive, large-sample empirical analysis, this book reports financial documents' continuous deterioration in relevance to investors' decisions. An enlightening discussion details

the reasons why accounting is losing relevance in today's market, backed by numerous examples with real-world impact. Beyond simply identifying the problem, this report offers a solution—the Value Creation Report—and demonstrates its utility in key industries. New indicators focus on strategy and execution to identify and evaluate a company's true value-creating resources for a more up-to-date approach to critical investment decision-making. While entire industries have come to rely on financial reports for vital information, these documents are flawed and insufficient when it comes to the way investors and lenders work in the current economic climate. This book demonstrates an alternative, giving you a new framework for more informed decision making. Discover a new, comprehensive system of economic indicators Focus on strategic, value-creating

resources in company valuation Learn how traditional financial documents are quickly losing their utility Find a path forward with actionable, up-to-date information Major corporate decisions, such as restructuring and M&A, are predicated on financial indicators of profitability and asset/liabilities values. These documents move mountains, so what happens if they're based on faulty indicators that fail to show the true value of the company? The End of Accounting and the Path Forward for Investors and Managers shows you the reality and offers a new blueprint for more accurate valuation.

Principles of Accounting Volume 1 - Financial Accounting John Wiley & Sons

In the business world, recent years have seen a growing acknowledgement of the value of intangible assets rather than physical assets. This has precipitated a crisis in the accounting industry: the accounting representations relied upon for years can no longer be taken for granted. Here, Norman Macintosh argues that we now need to understand accounting in a different manner.

Offering several different ways of looking at accounting and accountants, he draws upon the work of eminent thinkers such as Barthes, Baudrillard, Derrida, Foucault, Lyotard and Bahktin. In doing this, he develops revolutionary insights into the nature of accounting, pioneering the introduction of contemporary poststructuralist ideas into accounting theory and practice. With a wide range of examples and case studies and now available in paperback for the first time, this revolutionary new work will be essential reading for academic and professional accountants along with all those with an interest in the future of accounting.

ISE Ethical Obligations and Decision-Making in Accounting: Text and Cases
John Wiley & Sons

Canadian Financial Accounting Cases, 3rd edition has been developed to bridge the gap between the foundational concepts and the real world. Students are introduced to the case study methodology for financial accounting, which focuses on identifying the issue, understanding implications, developing alternatives, and making recommendations. Students must also be able to understand the overall financial reporting landscape and the overall impact of the individual accounting issues. The cases range from introductory level to

advanced level and can be used as assignments, exams, or for in-class discussions. The cases have been developed using IFRS (Part I), ASPE (Part II) or ASNPO (Part III) as the accounting frameworks, providing students with exposure to many different types of organizational structures, and have been linked to the CPA Competency Map. Instructors are provided with detailed teaching notes and marking keys that will assist in guiding the class discussions and assessments.
