Financial Accounting With Student Cd-rom + Study Guide, 8th Ed + Smarthinking Houghton Mifflin College Division Interactive Financial Accounting Lab, Version 3, by Smith/Birney offers over 40 hours of exercises and feedback to help students learn financial accounting concepts. This software places the student in an office environment as if they were working for a company. After they complete each exercise they will be promoted and will receive salary adjustments based on their performance. The software provides students with immediate feedback, and allows instructor s to monitor the progress of their class on an individual basis. With the introduction of new technology, distance learning courses, and new accounting terminology, our authors met with our users to discuss changes needed to improve this market leading software. These changes will allow us to address the needs of students in the new millennium, and provide instructors with a more flexible product. Some of these changes include more evenly paced modules, the ability to communicate and update exercises via the Internet by students, and a more network friendly interface. In addition to new pedagogical changes, instructor s will be excited to see that the managerial aspects of this already powerful software got even better with the inclusion of spreadsheet type data to keep track of student performance throughout the year.

Financial Accounting and Annual Report CD-ROM and Financial Accounting Tutorial and General Ledger, Windows Format Sixth Edition McGraw-Hill/Irwin

This is the only textbook in the financial accounting market that focuses on the innovation and excitement of entrepreneurs and small

businesses. Nearly all financial accounting texts cover only big corporations, an approach which fails to relate to many students' career paths or goals, or to deal with the realities of today's business world. In order to motivate students and help them learn to make business decisions, the text also includes many teaching elements, extending into a Decision Centre which emphasizes the use of accounting information in business decision making. The book focuses early on business and technology, offering students and faculty a modern, dynamic and relevant presentation of accounting. There is also extensive coverage of real-world, corporate financial statements throughout. - Beyond the Numbers end-of-chapter problems reinforce critical-thinking skills and decision making with real company examples and Internet references. - Quick Checks throughout the chapter reinforce the material just covered. They allow the reader to pause and reflect on the topics and give immediate feedback on the reader's understanding before moving on by providing answers at

Instructor's Resource System on Cd-Rom to Accompany Financial Accounting Houghton Mifflin College Division

This book includes self-test section at the end of each chapter. Test yourself, then check answers in the back of the book to see how you score. CD-ROM included.

Interactive Decision Cases for Financial Accounting Cd-Rom Financial Accounting With Cd-rom + Study Guide + Fin Graph Cd-rom, 8th Ed + Smarthinking Building on the flexible, balanced approach that made this text a market leader,

Financial Accounting, 7th Edition is designed to ensure student success, provide a strong real-world emphasis, integrate performance measurement, and emphasize technology. The system of learning by objectives enhances the role of the textbook by achieving complete and thorough communication between instructor and student. Ideal for the first semester of a two-semester sequence of financial and managerial accounting, the text is the most accurate on the market, with accuracy reviewers reading every line and working through every exercise, problem, and case in the text and supplements. Comprehensive and flexible exercises, problems, and cases at the end of every chapter allow students to build a knowledge foundation, apply the material covered in the chapter, and develop critical thinking, communication, and interpersonal skills. By placing the more procedural learning objectives at the end of every chapter and listing them as supplemental objectives, instructors can choose how much procedural detail to assign in their course. Chapter 1 is annotated to introduce students to the pedagogy used throughout the text. Student annotations are introduced in the first chapter and appear throughout to help students explore and reinforce concepts. There will be two new video cases in this edition, for a total of five. All will include real company logos and will be accompanied by an icon indicating to reference the company's web site. The Ready Notes supplement provides PowerPoint slides in a printed format. Blackboard and WebCT online learning technologies are available.
