Publication  
Managerial Accounting for Managers, 2nd Edition by Noreen/Brewer/Garrison is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. The Noreen book was created to serve customers who do not wish to teach the financial accounting-oriented content that is included in the Garrison book. Of our three books (the Brewer book, the Garrison book, and the Noreen book), the Noreen book is the most pure management accounting textbook. The other two books have greater amounts of financial accounting content. Managerial Accounting for Managers, 2nd Edition is geared towards professors who love Garrison's market-leading managerial accounting content, but have been bothered by the debits and credits included in the book. It includes the same coverage of managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization without the journal entries. The job-order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting--planning, control, and decision making.

**Managerial Accounting for Undergraduates** John Wiley & Sons Canadian Financial Accounting Cases, 3rd edition has been developed to bridge the gap between the foundational concepts and the real world. Students are introduced to the case study methodology for financial accounting, which focuses on identifying the issue, understanding implications, developing alternatives, and making recommendations. Students must also be able to understand the overall financial reporting landscape and the overall impact of the individual accounting issues. The cases range from introductory level to advanced level and can be used as assignments, exams, or for in-class discussions. The cases have been developed using IFRS (Part I), ASPE (Part II) or ASNPO (Part

accounting profession An accountant's practice depends on making difficult decisions. To achieve the best results, individual accountants and accounting firms need a clear understanding of the ethical duties and decision-making involved in the four major functions of modern accounting—auditing, management accounting, tax accounting, and consulting—as well as a strong sense of ethical conduct to guide the certification and validation of reliable financial records. Now in its third edition, *Accounting Ethics* is a thorough and engaging exploration of the ethical issues that accountants encounter in their professional lives. Since the publication of the first edition in 2002, *Accounting Ethics* has become an indispensable resource for accounting courses and certification programs worldwide, known for its focus on real-world application, practical advice, reader-friendly guidance, and its insight into the effects of global change on the profession. Together with coverage of the contemporary regulatory environment—including the Sarbanes-Oxley Act, the Public Company Accounting Oversight Board, and the Dodd–Frank Wall Street Reform and Consumer Protection Act—this revised edition features expanded pedagogical resources such as new end-of-chapter case studies and discussion questions, and includes the updated AICPA Code of Conduct. Concise and dependable, *Accounting Ethics* sustains its reputation as an authoritative resource for practicing accountants, new professionals, students of accounting, and those who are considering the profession.
