Physics of Nuclear Reactors presents a comprehensive analysis of nuclear reactor physics. Editors P. Mohanakrishnan, Om Pal Singh, and Kannan Umasankari and a team of expert contributors combine their knowledge to guide the reader through a toolkit of methods for solving transport equations, understanding the physics of reactor design principles, and developing reactor safety strategies. The inclusion of experimental and operational reactor physics makes this a unique reference for those working and researching nuclear power and the fuel cycle in existing power generation sites and experimental facilities. The book also includes radiation physics, shielding techniques and an analysis of shield design, neutron monitoring and core operations. Those involved in the development and operation of nuclear reactors and the fuel cycle will gain a thorough understanding of all elements of nuclear reactor physics, thus enabling them to apply the analysis and solution methods provided to their own work and research. This book looks to future reactors in development and analyzes their status and challenges before providing possible worked-through solutions. Cover image: Kaiga Atomic Power Station Units 1 – 4, Karnataka, India. In 2018, Unit 1 of the Kaiga Station surpassed the world record of continuous operation, at 962 days. Image courtesy of DAE, India. Includes methods for solving neutron transport problems, nuclear cross-section data and solutions of transport theory Dedicates a chapter to reactor safety that covers mitigation, probabilistic safety assessment and uncertainty analysis Covers experimental and operational physics with details on noise analysis and failed fuel detection

Shapo on the Law of Products Liability CRC Press

Whether you are a prosecutor or a defense attorney, a thorough understanding of the many procedural issues in a case can mean the difference between a conviction and an acquittal or an affirmance or reversal on appeal. This guide by Brent Newton comprehensively examines the major topics in

constitutional criminal procedure with a pragmatic view that gets to the heart of each matter quickly and cogently. It includes a summary to every significant decision of the United States Supreme Court that impacts constitutional criminal procedure. This text also highlights many of constitutional procedural issues that the United States Supreme Court has not yet addressed and reviews the extensive treatment these issues have received in the lower federal and state courts. Written for law students, criminal defense attorneys, and prosecuting attorneys, the Fourth Edition of Practical Criminal Procedure helps legal professionals understand complex criminal legal issues in context and how legal issues commonly arise in real-world litigation. New to the 4th Edition: The fourth edition includes practical analysis of many new Supreme Court decisions that significantly have changed many aspects of constitutional criminal procedure, including: Fourth Amendment cases, including *Kansas v. Glover* (2019); *Carpenter v. United States* (2018); *Collins v. Virginia* (2018); and *Byrd v. United States* (2018) Double Jeopardy cases, including *Gamble v. United States* (2019) Cases addressing the Sixth Amendment right to counsel, including *Ramos v. Louisiana* (2020) Sixth Amendment right to counsel cases, including *McCoy v. Louisiana* (2018) and *Garza v. Idaho* (2019) Sentencing cases, including *McKinney v. Arizona* (2020) Federal habeas corpus cases, including *Wilson v. Sellers* (2018)

Annually updated and revised by Hon. Donald G. Alexander of the Maine Supreme Judicial Court, *Maine Jury Instruction Manual* includes a wide array of civil and criminal jury instructions accompanied by commentary and discussion of practice points for closing arguments. New and revised instructions and commentary offer expert guidance on convening the jury panel, jury selection and voir dire, and return of the verdict, as well as practical guidance on how to present information to a jury in layman's terms to ensure effective communication with jury panels. *Maine Jury Instruction Manual* also provides extensive cross-references and online hyperlinks to the pattern criminal jury instructions for the District Courts of the First Circuit, with a cross-reference table and cross-references in related individual jury instructions. The subject matter index, table of cases, and table of statutes are also annually updated to reflect expanded and revised jury instruction coverage. The sample jury instructions will help legal professionals to avoid costly errors and to prepare for trial more quickly. The instructions lend themselves

to ready customization to the facts of the case and expedite preparation for court. The vast array of forms in Maine Jury Instructions will save hours of expensive and frustrating research and replication.

Eliminate Stress Forever with Psychoharmonics LexisNexis

An anthology of primary texts on meditation and contemplative prayer from a wide range of religious traditions. This is the first theoretically informed and historically accurate comparative anthology of primary texts on meditation and contemplative prayer. Written by international experts on the respective texts and corresponding traditions, Contemplative Literature provides introductions to and primary sources on contemplative practice from various religious traditions. The contributors explore classical Daoist apophatic meditation, Quaker silent prayer, Jewish Kabbalah, Southern Buddhist meditation, Sufi contemplation, Eastern Orthodox prayer, Pure Land Buddhist visualization, Hindu classical Yoga, Dominican Catholic prayer, Daoist internal alchemy, and modern therapeutic meditation. Each introduction to a contemplative text discusses its historical context, the associated religious tradition and literature, the method of contemplative practice, and the text's legacy and influence. Volume editor Louis Komjathy opens the work with a thoughtful consideration of interpretive issues in the emerging interdisciplinary field of contemplative studies. Readers will gain not only a nuanced understanding of important works of contemplative literature, but also resources for understanding contemplative practice and contemplative experience from a comparative and cross-cultural perspective. Louis Komjathy is Associate Professor of Theology and Religious Studies at the University of San Diego. He has published several books,

including Daoism: A Guide for the Perplexed and The Way of Complete Perfection: A Quanzhen Daoist Anthology, also published by SUNY Press.

Maine Jury Instruction Manual

A proliferation of lawsuits involving sport utility vehicles, defective tires, medical devices and drugs, and asbestos abounds. Public attention to products liability cases is at an all-time high, and awards routinely run into the millions of dollars. When developing a strategy in this high stakes world, attorneys can't afford to have anything other than the best information and insight into this evolving area of law. Lawyers need practical tools to assess a products liability case's potential and build their approach, and Shapo on the Law of Products Liability provides the tools to give you the winning edge. Through a holistic analysis of the law and its principal developments as witnessed in hundreds of cases, this treatise gives litigators a wide variety of perspectives on potential strategies, and the

tools to support those strategies with persuasive arguments. This authoritative two-volume work will enable you to: Assess products liability case potential and build sound litigation strategies
Dig deep into products liability law to build creative approaches to litigation
Craft a winning case and reap the greatest reward for your clients
Find the tools and information to support strategies with persuasive arguments
Both federal and state courts contribute a rich mix of decisions to products liability law, which covers both consumer products and occupational hazards. This indispensable resource for the products liability practitioner helps you prepare your case. Is the product defective? Who is liable? What is the manufacturer's responsibility? Who can be sued? What kind of awards may be realized? How might this be defended?
Shapo on the Law of Products Liability also includes coverage of: Asbestos litigation
Chinese drywall
Food and drug
Medical devices
Design/manufacturing defects claims
Punitive damages
Discovery rule
Up to date analysis and commentary
History and background on products liability law
Damages
Advertising material
Packaging
Marshall S. Shapo, the Frederic P. Vose Professor at Northwestern University School of Law, is a nationally recognized authority on torts and products liability law.
