A spine-tingling, edge-of-your-seat thriller about an alarming killing spree in southwest England from the CWA Gold Dagger Award-winning author. The eight-year-old boy had vanished from the car and—as if by slick, sick magic—had been replaced by a note on the steering wheel: “You don’t love him.” At the height of summer a dark shadow falls across Exmoor, as children begin to disappear, with each disappearance marked only by a terse, accusatory note. There are no explanations, no ransom demands, and no hope. Policeman Jonas Holly (a character returning from Bauer’s first two novels) faces a precarious journey into the warped mind of the kidnapper if he’s to stand any chance of catching him. But—still reeling from a personal tragedy—is Jonas really up to the task? There are some who would say that, when it comes to being

the first line of defense, Jonas Holly may be the last man to trust. “Finders Keepers has an enjoyably creepy premise . . . Bauer’s villain, incidentally, is one of the oddest in detective fiction: what he does with his victims is utterly weird.” —The Guardian

The quizmaster opened his arms and laughed, straight into Patrick’s eyes. ‘Patrick!’ he shouted. ‘Are you ready to play . . . Finders Keepers?’ Patrick’s eyes bulged. He licked his lips, swallowed. ‘Yes,’ he squeaked. ‘Well, come on over!’ bawled the quizmaster. And then everything went black. Patrick is a Finder, someone who can cross the barrier between two worlds and retrieve lost objects. He’s been chosen in a game of chance, but he’ll need more than luck to win, and time is running out.

It should have been a simple job. All archaeology student Jane Barnaby had to do was pick up a box her professor needed and deliver it to him at his dig site, along with his new car. Yes, his office was in Oxfordshire, and his dig site was in Spain, a trip of 1,400 miles across three countries and two bodies of water. Still, it should have been simple. And it was, until Jane discovered she picked up the wrong box by mistake. Not the one with boring pottery samples, but instead the one with priceless ancient Egyptian artifacts. The one that a team of international art thieves is after. Now she’s chasing - and being chased by - the thieves. And she’s picked up a pair of passengers who claim they can help her outwit them, get her professor’s pottery back

and return the artifacts to their rightful owner. If only she could figure out which one of them is working with the thieves and which one she can trust in this high-stakes game of finders keepers.

The greatest "unsolved mystery" of the American Southwest is the fate of the Anasazi, the native peoples who in the

eleventh century converged on Chaco Canyon (in today's southwestern New Mexico) and built what has been called the Las Vegas of its day, a flourishing cultural center that attracted pilgrims from far and wide, a vital crossroads of the prehistoric world. The Anasazis' accomplishments - in agriculture, in art, in commerce, in architecture, and in engineering - were astounding, rivaling those of the Mayans in distant Central America. By the thirteenth century, however, the Anasazi were gone from Chaco. Vanished. What was it that brought about the rapid collapse of their civilization? Was it drought? pestilence? war? forced migration? mass murder or suicide? For many years conflicting theories have abounded. Craig Childs draws on the latest scholarly research, as well as on a lifetime of adventure and exploration in the most forbidding landscapes of the American Southwest, to shed new light on this compelling mystery. *Cycle of Ages Saga Finders Keepers* Franklin finds a camera in the park, and uses its film to take pictures of his friends, but then he thinks he should try to find its owner.

Finders Keepers Disney Electronic Content In the spirit of *The Good Place*, *Bill & Ted's Excellent Adventure*, and *The Hitchhiker's Guide to the Galaxy*, author Russ Colchamiro has gone back to the future to deliver his wildest, funniest novel yet-the updated Sci-Fi/Fantasy tale *Finders Keepers: The Definitive Edition*. When a jar containing the Universe's DNA falls from Eternity, bumbling backpackers Jason and Theo find their loyalties-and sanity!-put to the test. Traversing Europe, New Zealand, and the backbone of Eternity, *Finders*

Keepers: The Definitive Edition ultimately asks one simple question: Is the life you're living the life you actually want . . . or does the Universe have more to offer than you can possibly imagine? *Finders Keepers* Back Bay Books The "gritty and riveting" story of naturalist Craig Childs's epic journey through the desert canyons of the American Southwest (*The Oregonian*). Are you prepared for a perilous journey into the wild? This taut, intensely dramatic narrative immerses us in a labyrinth of canyons in the American Southwest where virtually nothing is alive - barely any vegetation, few signs of wildlife, and scant traces of any human precursors - and where we pay witness as two men confront not just immutable forces of nature but the limits of their own sanity. As a chronicle of adventure, as an emotionally charged human drama, as a confessional memoir, *The Way Out* is a transcendent book, a work destined to earn a lasting place in the literature of extremes.

The Finders Keepers Mystery Little, Brown The "unexpectedly moving" story of dumb luck and the American Dream set in South Philly from the # 1 New York Times-bestselling author (Entertainment Weekly). What would you do if you found a million dollars? When Joey Coyle did, he was a twenty-eight-year-old drug-dependent, unemployed longshoreman living with his ailing mother in a tight-knit Philadelphia neighborhood. While cruising the streets just blocks from his home, fate took a turn worthy of a Hollywood caper when he found \$1.2 million in unmarked bills-casino money that had fallen off an armored truck. It was virtually untraceable. Coyle? Not so much. Over the next seven days, fueled by euphoria, methamphetamine, and paranoia, Coyle shared his windfall with everyone from his eight-year-old niece to total strangers to a local mob boss who offered to "clean" it. All the while, Det. Pat Laurenzi and members of the FBI were working around the clock to find it. No one was prepared for how Coyle's dream-come-true would come tumbling down, or what would happen when it did. From "a master of narrative journalism" comes the incredible true-life

thriller of an ordinary man with an extraordinary dilemma, and the complicity, concern, and betrayal of friends, family, and neighbors that would prove his undoing (*The New York Times Book Review*). "A miniature serio-comedy about life in the city." -*The Washington Post* "Masterfully reported and artfully paced." -*Entertainment Weekly* "A taut, fast-paced tale." -*The Baltimore Sun* *Finders Keepers* Tyndale House Publishers, Inc.
