A foundational work of radical anticolonialism, back in print Originally published in 1974, The Fourth World is a critical work of Indigenous political activism that has long been out of print. George Manuel, a leader in the North American Indian movement at that time, with coauthor journalist Michael Posluns, presents a rich historical document that traces the struggle for Indigenous survival as a nation, a culture, and a reality. The authors shed light on alternatives for coexistence that would take place in the Fourth World—an alternative to the new world, the old world, and the Third World. Manuel was the first to develop this concept of the “fourth world” to describe the place occupied by Indigenous nations within colonial nation-states. Accompanied by a new Introduction and Afterword, this book is as poignant and provocative today as it was when first published.

Award-winning photographer Stuart Franklin's exploration of how we, as humans, are driven to visually document our experiences and the world around us. Stuart Franklin took one of the most powerful photographs of the twentieth century - the 'tank man' in Tiananmen Square, Beijing, 1989. From his insightful position as a photographer, Franklin explores why we are driven to visually document our experiences and the world around us. He focuses on photography but traces this universal need through art, literature and science. Looking at photojournalism, war photography and work recording our culture, Franklin identifies some of its driving impulses: curiosity, outrage, reform and ritual; the search for evidence, for beauty, for therapy; and the immortalization of memory. As our understanding of 'documentary' continues to expand, Franklin considers photographic staging - where, perhaps, the future of the genre may lie: in search of truth over fact. "This book traces what I shall call the documentary impulse. Here I mean the passion to record, with fidelity, the moments we experience and wish to preserve, the things we witness and might want to reform; or simply the people, places or things we find remarkable... Photography (and journalism) practised respectfully has the power to educate us all towards a greater understanding and empathy towards others." —Stuart Franklin

Who was Robin Hood? Romantic legend casts him as outlaw, archer, and hero of the people, living in Sherwood Forest with Friar Tuck, Little John and Maid Marian, stealing from the rich to give to the poor - but there is no historical proof to back this up. The early ballads portray a quite different figure: impulsive, violent, vengeful, with no concern for the needy, no merry band, and no Maid Marian. Hodd provides a possible answer to this famous question, in the form of a medieval document rescued from a ruined church on the Somme, and translated from the original Latin. The testimony of an anonymous monk, it describes his time as a boy in the greenwood with a half-crazed bandit called Robert Hodd - who, following the thirteenth-century principles of the 'heresy of the Free Spirit', believes himself above God and beyond sin. Hodd and his crimes would have been forgotten without the boy's minstrel skills, and it is the old monk's cruel fate to know that not only has he given himself up to apostasy and shame, but that his ballads were responsible for turning a murderous felon into the most popular outlaw hero and folk legend of England, Robin Hood. Written with his characteristic depth and subtlety, his sure understanding of folklore, his precise command of detail, Adam Thorpe's ninth novel is both a thrilling re-examination of myth and a moving reminder of how human innocence and frailty fix and harden into history.

A woman meets a stranger who tells her her identity is a lie. 772 or 789 children's brains rest silently in jars. A traveller comes to a quotidian city, unknowingly approaching her past. This is a bedazzling kaleidoscopic novel, stitching together fact and fiction, history and memory, words and images into a heart-breaking collage that manages to look askance at the blinding horror of history. Ranging across themes of memory, loss, inheritance and storytelling, the author borrows from every tradition of writing to weave together a fragmented narrative of love and disease, in a novel that its very format raises penetrating and unanswerable questions about history, and the processes by which we describe and remember it.
