The consequences of drug use, whether illicit or prescribed. Consequences that can be enduring, lifelong, even carry through generations. Yet few of us have the time to consider them as we live in the heat of our own daily lives. I have seen this in action, watched events while they happened, seen it unfold, lived through the results, and unfortunately am observing the ongoing calamities of it all, still today. It is not fun to watch but not mine to fix. I was and am an observer, a recorder, merely that, out of the action, incapable of altering the results. My wife made a great point on this novels subject. Drug use she said is a leveler. It brings people down the lowest common denominator. What a concept! How right on is that statement! Drugs affect the rich, the

poor, the famous, and the infamous in every country and nationality on this earth. If you are on the upscale end drugs keep you there. The users life contribution to humanity is likely to be nothing, but the cost to the user, their family and friends in physical, emotional, and fiscal terms expensive and of course dangerous, because it may also kill you. I have put these observations into this novel hoping that readers can identify with the characters, watch them grow and suffer through the consequences of their actions unaware of the effect of their lives and on others.
