Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better. Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement that will inspire readers to achieve more, even in life's darkest moments. Read the Wall Street Journal Bestseller for "cultivating intense focus" for fast, powerful performance results for achieving success and true meaning in one's professional life (Adam Grant, author of Give and Take). Deep work is the ability to focus without distraction on a cognitively demanding task. It's a skill that allows you to quickly master complicated information and produce better results in less time. Deep Work will make you better at what you do and provide the sense of true fulfillment that comes from craftsmanship. In short, deep work is like a super power in our increasingly competitive twenty-first century economy. And yet, most people have lost the ability to go deep-spending their days instead in a frantic blur of e-mail and social media, not even realizing there's a better way. In Deep Work, author and professor Cal Newport flips the narrative on impact in a connected age. Instead of arguing distraction is bad, he instead celebrates the power of its opposite. Dividing this book into two parts, he first makes the case that in almost any profession, cultivating a deep work ethic will produce massive benefits. He then presents a rigorous training regimen, presented as a series of four "rules," for transforming your mind and habits to support this skill. 1. Work Deeply 2. Embrace Boredom 3. Quit Social Media 4. Drain the Shallows A mix of cultural criticism and actionable advice, Deep Work takes the reader on a journey through memorable stories-from Carl Jung building a stone tower in the woods to focus his mind, to a social media pioneer buying a round-trip business class ticket to Tokyo to write a book free from distraction in the air-and no-nonsense advice, such as the claim that most serious professionals should quit social media and that you should practice being bored. Deep Work is an indispensable guide to anyone seeking focused success in a distracted world. Give Yourself the Gift of Done Harper Collins

Wall Street Journal best-selling author Jon Acuff reveals the steps to getting unstuck and back onto the path of being awesome. Over the last 100 years, the road to success for most everyone has been divided into five stages that mirror the decades of working life: Your 20s are a period of Learning. This is the decade of trying a thousand things, exploring a multitude of interests, and discovering what really motivates you. Your 30s are a period of Editing. This is the decade of sorting out interests, where you discover what you really care about and who you really are. Your 40s are a period of Mastering. This is the decade of narrowing focus, honing skill sets, and becoming an expert in your field. Your 50s are a period of Harvesting. This is the decade of reaping the benefits of good decisions and enjoying the highest income-earning period in a career. Your 60s are a period of Guiding. This is the decade of mentoring, training, and encouraging others on their own road to success. Every successful person has followed these steps regardless of their occupation. But three things have changed the path to success and erased the decades associated with them: Finish lines are dead – Boomers are realizing that a lot of the things they were promised aren't going to materialize, and they have started second and third careers. Anyone can play – Technology has given access to an unprecedented number of people who are building online empires and changing their lives in ways that would have been impossible years ago. Hope is boss – The days of “success

first, significance later,” have ended. A new generation doesn't want to change the world eventually; they want to change it now through the wells they kickstart in Africa and the TOMS they wear on their feet. The value system has been flipped upside down. The result is that you've got an entire generation pushing down to start over, another generation pushing up to start for the first time, and in the middle of this collision, the tools to actually change the world. Experience years now trump chronological age. And while none of the five stages can be skipped, they can be shortened and accelerated. There are only two paths in life: average and awesome. The average path is easy because all you have to do is nothing. The awesome path is more challenging, because things like fear only bother you when you do work that matters. The good news is *Start* gives readers practical, honest, actionable insights to be more awesome, more often. It's time to punch fear in the face, escape average, and do work that matters. It's time to *Start*. *Closing the Gap Between Your Day Job & Your Dream Job* Penguin UK

A Washington Post Notable Book This New York Times bestseller is a “masterful” (The Washington Post), “juicy tour of the company [Jeff] Bezos built” (The New York Times Book Review), revealing the most important business story of our time by the bestselling author of *The Everything Store*. Almost ten years ago, Bloomberg journalist Brad Stone captured the rise of Amazon in his bestseller *The Everything Store*. Since then, Amazon has expanded exponentially, inventing novel products like Alexa and disrupting countless industries, while its workforce has quintupled in size and its valuation has soared to nearly two trillion dollars. It's almost impossible to go a day without encountering the impact of Jeff Bezos's Amazon, between services like Whole Foods, Prime Video, and Amazon's cloud computing unit, AWS, plus Bezos's ownership of The Washington Post. We live in a world run, supplied, and controlled by Amazon and its iconoclast founder. In *Amazon Unbound*, Brad Stone presents an “excellent” (The New York Times), deeply reported, vividly drawn portrait of how a retail upstart became one of the most powerful and feared entities in the global economy. Stone also probes the evolution of Bezos himself—who started as a geeky technologist totally devoted to building Amazon, but who transformed to become a fit, disciplined billionaire with global ambitions, who ruled Amazon with an iron fist, even as he found his personal life splashed over the tabloids. Definitive, timely, and “engaging” (Jon Meacham, author of *The Soul of America*), Stone has provided an unvarnished portrait of a man and company that we couldn't imagine modern life without.

With his self-deprecating humor and charm, he has won over hundreds of thousands of followers, who come to him for both encouragement and a kick in the pants. Now, after showing you how to reboot your career in his New York Times bestseller *Do Over*, Acuff shows chronic starters how to actually finish their goals in an age of bottomless distractions and endless opportunities. Acuff knows the reason why many writers' novels go unfinished--it's the same reason why gyms are filled in the first week of January, and empty by the end of the month, and why people stop learning a new language once they get past the easy parts. It's not just that people lose momentum or get distracted. People give up on projects when they fail to live up to their own high expectations and decide that if they can't do something perfectly they won't do it at all. If you're going to finish, you have to kill perfectionism. Drawing on his popular 30 Days of Hustle course, Acuff teaches readers to short-circuit perfectionism and make it through to the end of a task.

Whether it's by "choosing what to bomb" or "cutting a goal in half," he shows readers how to move past "the day after perfect," get focused, and--finally- finish.

The Difference Between Limiting Your Life and Living Your Dream Ramsey Press

"While leading a thirty-day online course to help people work on their goals, [the author] learned something surprising: the most effective exercises were not those that pushed people to work harder. The ones that got people to the finish line did just the opposite--they took the pressure off. Why? Because the sneakiest obstacle to meeting your goals is not laziness, but perfectionism. We're our own worst critics, and if it looks like we're not going to do something right, we prefer not to do it at all"--Amazon.com.
