Widely used as a

primer, a text and a provocation to critical thinking, 'Studying Religion' aims to develop students' skills. The book clearly explains the methods and theories employed in the study of religion. Essays are offered on a range of topics: from the history and functions of religion to public discourse on religion and the classification of religions. The works of key scholars - from Karl Marx, Ludwig Wittgenstein and Rudolf Otto to Mircea Eliade,

James G. Frazer, and Sigmund Freud - are analysed and explored. 'Studying Religion' represents a shift away from the traditional focus of describing the exotic or curious religious 'Other' to an examination of how religious behaviours and institutions are studied. The book will be invaluable to students of religious studies. *Preparing for the Calculus AP Exam with Calculus* Addison Wesley Longman

 A Lady's Scorn Wrongly branded a spy, the dark and handsome Viking lord Selig Haardrad suffered greatly in the dungeons of Lady Erika of Gronwood. And as he hung in chains, his magnificent body wracked with pain and fever, one thought sustained him: revenge! A Viking's Vengeance Now

Destiny's great wheel has turned--and Selig's exquisite, honey-haired tormentor has been delivered into the Norseman's hands. Now it is Selig who is the master, bound and determined to break the proud spirit of his captive "ice queen" and to conquer her with passion's sword -- never dreaming that his own heart will be vanquished by sensuous desire. . .and victorious love.
